

Touch Lock Geely Car Door Parts Assembly Replacement Soft Leather Interior

Our Product Introduction

for more products please visit us on auto-partsspare.com

Basic Information

- Place of Origin: China Zhejiang
- Brand Name: GEELY
- Model Number: 101204684900C15FC-3AC
- Minimum Order Quantity: 1
- Price: RMB+1600+pc
- Packaging Details: Carton packing, 1 PCS per carton
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 500+pc+30day

Product Specification

- Product Name: Right Front Door Assembly (PEPS_Electrophoresis, FC-3AC)
- Size: OEM Standard Size
- Type: Car Body Parts
- Material: Steel,Metal
- Color: Gray
- Packing: Carton,normal
- Car Make: Geely
- Quality: Genuine Product,High Level
- Highlight: **Geely car door assembly, Touch Lock car door assembly, replacement car parts Geely Door**

Product Description

Right front door Assembly (PEPS_ Electrophoresis, FC-3AC)

I. Overall structure and design

The design of Geely's front door assembly has been carefully considered and perfectly integrated with the overall style and lines of the vehicle. It has a smooth shape, which not only conforms to the aerodynamic principle, effectively reduces wind resistance, but also improves the beauty of the vehicle.

II. Material and quality

It adopts high-quality materials with good strength and stiffness, which can resist the impact of various external forces in daily use and provide reliable security for the personnel in the car. The doors of some models may be made of aluminum alloy, which has the advantages of light weight and high strength, and has good anti-collision performance.

III. Details and process

1. In the interior part of the door, the area in contact with the elbow is usually wrapped in soft leather, with excellent texture, which makes you feel comfortable when opening and closing the door. At the same time, it also reduces the use of hard plastic materials and improves the overall texture of the car.
2. There may also be a convenient design such as touch lock on the door handle, which is convenient for users to operate.
3. The painting process on the outer surface of the door is exquisite, and the color is uniform and durable, which can effectively resist daily wear and corrosion.

IV. Functional components

1. It includes a window glass lifting system to ensure that the windows can be raised and lowered smoothly, providing good vision and ventilation conditions for drivers and passengers.
2. It is equipped with a sealing strip to effectively isolate dust, rain and noise from the outside world, and keep the interior environment quiet and comfortable.

V. Adaptation and installation

It is specially designed for various Geely models and accurately matches the installation position of the body to ensure that the door after installation is close to the body and the switch is smooth. The installation process strictly follows Geely's production standards to ensure the performance and safety of the door.

VI. Anti-collision beam design (some models)

The front door of some Geely models may be equipped with anti-collision beams. The material of anti-collision beams is usually relatively strong, such as metal materials or GMT materials with special properties. These anti-collision beams can play an important protective role in the side collision of the vehicle, absorb and disperse the impact energy, and reduce the damage to the people in the car.

Product name	Right front door Assembly (PEPS_ Electrophoresis, FC-3AC)
Size	OEM Standard Size
Type	Car Body Parts
Material	Steel,Metal
Color	gray
Packing	Carton,normal
Car make	Geely
Quality	Genuine product,High Level
