Product Description

Geely Xingyue L left outside mirror assembly/Geely Accessories/reverse mirror

I. Fashionable appearance and exquisite design

The shape of the external rearview mirror assembly is fashionable and integrated with the overall style of the body. The smooth line design not only increases the beauty of the vehicle, but also optimizes the aerodynamic performance. Its shell may be made of high-quality materials, with good scratch resistance and anti-aging characteristics, and can maintain a clean and bright appearance for a long time.

II. Rich and diverse functions

1. Electric adjustment: The driver can easily adjust the angle of the rearview mirror through the in-car button to get the best rear view.
2. Heating function: Under rain, snow, fog and other weather conditions, the heating function can quickly remove water droplets, fog or frost on the mirror to ensure that the rearview mirror is clear and ensure driving safety.
3. Integrated turn signals: The design of turn signals improves the steering indication effect of the vehicle, makes it easier for other road users to notice the driving intention of the vehicle, and enhances driving safety.
4. 360° panoramic image support (some models): For some models with higher configurations, the external rearview mirror assembly also integrates a side camera to provide side image information for the 360° panoramic image system to help the driver understand the surrounding environment of the vehicle more comprehensively.

III. Good field of vision

After careful design, it can provide a wide range of vision, reduce blind spots, and make drivers feel more at ease when driving, changing lanes and reversing.

IV. Stable and reliable performance

With a stable structure and reliable connection method, it can remain stable during vehicle driving, especially when driving at high speed or encountering bumpy roads, without obvious shaking or shaking, and ensure that the rearview mirror always provides a clear image.

V. High-quality materials and manufacturing process

Made of high-quality materials, with good durability and corrosion resistance, it can adapt to various complex climate and environmental conditions. Its manufacturing process is exquisite and the details are in place, which reflects the strict quality requirements of Geely Automobile.

6. Intelligence and convenience

Some models may be equipped with electric folding function. When the vehicle is parked or passes through a narrow section, the rearview mirror can be folded automatically or manually to avoid scratching. At the same time, some models may also have a memory function, which can remember the rearview mirror position that the driver is used to, which is convenient for different drivers to quickly adjust to the appropriate viewing angle.

In a word, the external rearview mirror assembly of Geely Xingyue L not only complements the style of the whole vehicle in appearance, but also performs well in function and performance, providing the driver with a clear vision, convenient operation and reliable security.
