

Plastic Car Electrical Parts Tire Pressure Sensor For Geely Xingyue L And Boyue L

Our Product Introduction

for more products please visit us on auto-partsspare.com

Basic Information

- Place of Origin: China zhejiang
- Brand Name: GEELY
- Model Number: 7091004700
- Minimum Order Quantity: 1
- Price: RMB+80+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Product Name: Tire Pressure Sensor Boyue L
- Fuel Type: Electric
- Color: Black
- Type: Car Electrical Parts
- Material: Plastic
- Car Make: Geely Xingyue L
- Highlight: **Geely Boyue Car Electrical Parts,
Boyue L Car Electrical Parts,
Boyue L Tire Pressure Sensor**

Product Description

Geely Xingyue L tire pressure sensor Boyue L

The tire pressure sensors of Geely Xingyue L and Boyue L have the following advantages:

1. Real-time monitoring: It can accurately monitor the air pressure of the tire in real time, so that the driver can know the tire status at any time.
2. Safety and security: detect abnormal tire pressure in time to prevent tire bursts and other safety accidents caused by tire pressure problems.
3. Energy saving and performance optimization: Maintaining appropriate tire pressure helps to improve fuel efficiency and vehicle handling performance.

Principle:

The tire pressure sensor usually has a built-in pressure sensing device and a wireless transmission module. The pressure sensing device senses the change of air pressure inside the tire and converts the pressure data into an electrical signal. The wireless transmission module sends the data to the receiving device of the vehicle and then displays it on the dashboard or on-board display.

Technology:

1. High-precision sensing technology: ensure the accuracy of pressure measurement.
2. Low-power wireless transmission technology: ensure the battery life of the sensor while stable data transmission.
3. Anti-interference technology: In the complex electronic environment of the vehicle, it can work stably without interference from other electronic equipment.

Workmanship:

1. It adopts durable materials and can adapt to harsh environments such as high temperature, high pressure and vibration inside the tire.
2. The fine packaging process ensures the sealing and reliability of the sensor.
3. Strict quality inspection to ensure that each sensor meets high-quality standards.

Product name	tire pressure sensor Boyue L
Fuel type	Electric
Color	Black
Type	Car Electrical Parts
Material	plastic
car make	Geely Xingyue L

备件名称	配套厂代码
胎压传感器	519056
