Product Description

Geely Xingyue; L front reading lamp, indoor lamp

Geely Xingyue L front reading lamp and indoor lamp have the following characteristics:

Advantages:

1. Adequate lighting: Provide enough bright and uniform light to meet the needs of reading and looking for items in the car.
2. Convenient operation: It usually has convenient switch control, which is easy for passengers to use.
3. Energy-saving and efficient: adopt energy-saving light-emitting technology to reduce vehicle energy consumption.

Principle:

Through a light bulb or light-emitting diode (LED) as a light source, the light-emitting material is excited to produce light when the current passes through. The switch control circuit is turned on and off, so that the light can be turned on and off.

Technology:

1. LED technology: Most of them use LED light sources, which have the characteristics of long life, low energy consumption and high luminous efficiency.
2. Soft light technology: make the light soft and not dazzling through the lampshade or optical design.

Workmanship:

1. The exquisite exterior design is coordinated and unified with the interior style of the car.
2. Good installation process to ensure that the lamp is firm and not loose.
3. Waterproof and dustproof treatment to adapt to the complex environment in the car.

Features:

1. Adjustable angle: Some reading lights can adjust the irradiation angle to meet the lighting needs of different positions.
2. Light-up and fading function: the light gradually changes when it is turned on and off to reduce the irritation to the eyes.

Function:

1. It provides in-car lighting to facilitate passengers to read, view maps and other activities at night or when the light is dark.
2. Assist passengers to find items in the car.
3. Create a comfortable atmosphere in the car and increase the comfort and pleasure of riding.

Product name	front reading lamp, indoor lamp
Fuel type	Electric
Color	Black
Type	Car Electrical Parts
Material	plastic
car make	Geely Xingyue L
