Product Description

Geely Xingyue L left front door electric glass lifting switch

Geely Xingyue L left front door electric glass lifting switch has the following characteristics:

Advantages:

1. Convenient operation: It allows the driver to easily control the lifting of the left front window without manual operation.
2. One-click lifting: Support one-click lifting function to improve the convenience and efficiency of use.
3. Accurate control: It can realize the accurate control of the lifting position of the window.

Principle:

The switch contains circuits and contacts. When the switch is pressed, the circuit is turned on, and an electrical signal is sent to the electric glass lifter to drive the motor to run, thus driving the window glass up and down.

Technology:

1. Anti-pin hand technology: In the process of window rising, if you encounter obstacles, it can automatically stop or fall to prevent the passenger from being pinched.
2. Electronic control technology: communication and coordination with other components through the electronic system of the vehicle.

Workmanship:

1. The key texture is comfortable: the operation feels good, and the key feedback is clear.
2. Strong durability: using high-quality materials and manufacturing processes, it can withstand frequent use.
3. Waterproof and dustproof design: adapt to the complex use environment of the door.

Features:

1. Ergonomic design: The position and shape of the switch conform to the driver's operating habits and are easy to touch and operate.
2. Indicator light display: There may be an indicator light indicating the lifting status of the window.

Function:

1. It is convenient for drivers to control the windows and adjust the ventilation and lighting in the car.
2. Improve driving safety, such as quickly lowering down the window when passing through toll stations or communicating with others.
3. Enhance the comfort and convenience of the vehicle to meet the needs of different scenarios.

Product name	left front door electric glass lifting switch
Fuel type	Electric
Color	Black
Type	Car Electrical Parts
Material	Aluminum,plastic
car make	Geely Xingyue L
