

Small Aftermarket Airbags And Ac For Cars PHEV Geely Xingyue L KX11-A1 G636 G733

Our Product Introduction

for more products please visit us on auto-partsspare.com

Basic Information

- Place of Origin: China zhejiang
- Brand Name: GEELY
- Model Number: 8014025800
- Minimum Order Quantity: 1
- Price: RMB+2300+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Color: Black
- Type: Car Accessories
- Airbag Type: Front And Side
- Size: Standard
- Function: Cooling And Safety
- Compatibility: Universal
- Material: Plastic And Fabric
- Model: Geely Xingyue L
- Highlight: Geely aftermarket airbags,
PHEV aftermarket airbags,
Geely aftermarket ac for cars

Product Description

Geely Xingyue L warm air heater (KX11-A1, G636, G733-PHEV)

Geely Xingyue L warm air heater has the following characteristics:

Advantages:

1. Fast heating: It can provide warm air in a short time and improve the comfort in the car.
2. High efficiency and energy saving: reasonably control energy consumption while meeting heating needs.
3. Good stability: stable and reliable working performance, reducing the probability of failure.

Principle:

The warm air heater of Geely Xingyue L usually uses the heat of the car engine coolant to heat the air. When the coolant flows through the heater core, the core transmits heat to the passing air, thus blowing out the warm air.

Technology:

Advanced heat exchange technology may be adopted to improve heat transfer efficiency. In addition, it may also have intelligent temperature control technology to automatically adjust the heating power according to the temperature and settings in the car.

Workmanship:

The manufacture process of the heater is fine to ensure that the connection between the components is tight and well sealed to prevent the leakage of coolant.

Features:

It is small in size and easy to install in the limited space in the car. At the same time, it has good durability and can adapt to vibration and temperature changes in the operation of the vehicle.

Function:

1. Provide warm air in the car in cold weather and improve the driving environment.
2. It helps to defrost and fog the windows, ensure clear driving vision, and improve driving safety.

These advantages, principles, technologies, workmanship, characteristics and functions enable Geely Xingyue L's warm air heater to effectively provide a comfortable temperature environment for the car.
