

Auto Geely Xingyue L Front Beam Aftermarket Body Kits Panels Assembly Reduced Wind Resistance

Our Product Introduction

Basic Information

- Place of Origin: China zhejiang
- Brand Name: GEELY
- Model Number: 5070049600C15
- Minimum Order Quantity: 1
- Price: RMB+160+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Product Name: The Front Beam Assembly Of The Top Cove
- Size: OEM Standard Size,Standard
- Type: Car Body Parts
- Material: Steel,Metal
- Color: Gray
- Packing: Carton,normal
- Car Make: Geely Xingyue L
- Quality: Genuine Product,High Level
- Highlight: **aftermarket body kits Assembly,
Xingyue L aftermarket body kits,
Geely aftermarket auto body panels**

Product Description

The front beam assembly of the top cover of Geely Xingyue

The front beam assembly of Geely Xingyue L has the following characteristics:

Advantages:

1. Enhance the structural strength of the body: effectively resist the impact of collision and improve the safety of the vehicle.
2. Optimize the NVH performance of the vehicle: reduce wind noise, road noise, etc. into the vehicle and improve the comfort of driving.
3. Lightweight design: reducing body weight while ensuring strength, which helps to improve fuel economy or range.

Principle:

As part of the body structure, the front beam assembly of the top cover distributes the force to the entire body frame through reasonable mechanical structure distribution, thus ensuring the stability and integrity of the body.

Technology:

1. Application of high-strength steel: advanced high-strength steel materials are used to improve the strength and toughness of beams.
2. Precision stamping and welding process: ensure the dimensional accuracy and connection strength of the beam.

Workmanship:

1. The weld is uniform and firm: ensure that the beam will not crack when it is under force.
2. Fine surface treatment: good anti-rust and anti-corrosion performance.

Features:

1. Unique shape design: adapt to the streamlined body shape and reduce wind resistance.
2. Optimized internal strengthening structure: improve the bearing capacity of the beam.

Function:

1. Support the roof structure: maintain the shape and stability of the roof to prevent deformation during driving.
2. Participate in collision energy transmission: absorb and disperse energy in an accident to protect the living space of the occupants in the car.
3. Provide the basis for the installation of roof accessories, such as skylights, luggage racks, etc.

Product name	The front beam assembly of the top cove
Size	OEM Standard Size,Standard
Type	Car Body Parts
Material	Steel,Metal
Color	gray
Packing	Carton,normal
Car make	Geely Xingyue I
Quality	Genuine product,High Level
