

Aftermarket Electric Car Auto Starter Assembly For Geely Boyue Custom

Our Product Introduction

Basic Information

- Place of Origin: China zhejiang
- Brand Name: GEELY
- Model Number: 2043001900
- Minimum Order Quantity: 1
- Price: RMB+580+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Fuel Type: Electric
- Color: Silver
- Type: Car Electrical Parts
- Product Name: Starter Car Electrical Parts For Your Machinery And Equipment
- Material: #1Steel,Aluminum
- Car Make: Geely Boyue
- Highlight: **aftermarket auto starters,
Geely Boyue auto starters,
Geely Boyue aftermarket car starter**

Product Description

Geely Boyue starter

Geely Boyue is unique in the automobile market with its excellent performance and excellent quality, and its starter is indispensable.

I. Process

The manufacturing process of Geely Boyue starter is superb. With high-precision machining and advanced assembly technology, each component has been carefully polished and strictly screened. On the production line, strictly follow the process of international standards to ensure that each starter has excellent performance and stability.

II. Technology

Integrating the latest car start-up technology, Geely Boyue starter adopts an efficient electromagnetic drive system, which can provide powerful torque in an instant. The intelligent control module accurately controls the start-up time and current output of the starter, minimizing the energy loss and mechanical wear during the start-up process.

III. Quality

Quality is the lifeline of Geely Boyue starter. High-quality raw materials, such as high-strength metal alloys and high-temperature insulation materials, are selected to ensure that the starter can run stably in a harsh working environment for a long time. The strict quality inspection system runs through the whole production process, from the feed inspection of parts to the final test of the finished product, without letting go of any detail that may affect the quality.

IV. Workmanship

From the appearance to the internal structure, the workmanship of the Geely Boyue starter is exquisite. The shell is made of strong metal, and the surface is rust-proof and corrosion-proof. It is not only beautiful and generous, but also durable and reliable. The internal windings are neat and tight, the wiring is solid, and the cooperation between the parts is accurate, which fully reflects the ultimate pursuit of quality.

V. Advantages

1. Fast start: It can drive the engine flywheel to rotate in a very short time, achieve fast start, and reduce the waiting time of the owner.
2. Low-noise operation: It adopts advanced noise reduction technology, and the noise is extremely low during the start-up process, providing a quiet and comfortable environment for the driver.
3. Strong durability: After strict durability test, it can withstand frequent start-up operations and has a long service life.
4. Energy saving and environmental protection: The efficient design makes the starter have a high energy utilization rate at work and a small burden on the vehicle's battery, which is conducive to energy conservation and emission reduction.

VI. Function

1. Start the engine: This is the core role of the starter, which changes the engine from a static state to a running state through electric drive.
2. Ensure smooth driving: Ensure that the vehicle can start quickly at any time, do not delay travel, and provide a guarantee for the continuity and convenience of driving.

With its excellent technology, advanced technology, reliable quality, fine workmanship, significant advantages and role role, Geely Boyue starter has become a reliable power starter of Geely Boyue models, injecting a strong power start into every trip.

Fuel type	Electric
Color	silver
Type	Car Electrical Parts
Product name	Starter Car Electrical Parts for Your Machinery and Equipment
Material	#1Steel,Aluminum
car make	Geely Boyue
