

## Geely Boyue Auto Engine Parts Vacuum Oil Pump CNC Machining

Our Product Introduction

for more products please visit us on [auto-partsspare.com](http://auto-partsspare.com)

### Basic Information

- Place of Origin: China zhejiang
- Brand Name: GEELY
- Model Number: 2044000400
- Minimum Order Quantity: 1
- Price: RMB+200+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

### Product Specification

- Product Name: Engine Vacuum Pump Assembly/Vacuum Pump Assembly For Geely Boyue Engine
- Material: Steel,Metal
- Size: Standard Size
- Packing: Neutral Packing
- Quality: High Performance
- Car Make: Geely Boyue
- Highlight: **Geely Boyue Auto Engine Parts, CNC machining Auto Engine Parts, CNC machining engine oil pump**

## Product Description

### Geely Boyue engine vacuum pump assembly

In the power core of Geely Boyue, the engine vacuum pump assembly plays an indispensable role. Its exquisite technology, advanced technology, reliable quality, fine workmanship and significant advantages jointly escort the excellent performance of the vehicle.

#### I. Process

The manufacturing process of Geely Boyue engine vacuum pump assembly is first-class. High-precision CNC machining equipment is adopted to ensure the optimal dimensional accuracy and surface quality of each component. During the assembly process, the standardized operation process is strictly followed, and each step has been carefully debugged and strictly tested to ensure the overall performance and reliability of the assembly.

#### II. Technology

Integrating the advanced technology of modern automobile engineering, Geely Boyue's vacuum pump assembly adopts the efficient vacuum pump design principle. By optimizing the impeller structure and airway layout, the exhaust efficiency and vacuum stability are improved. At the same time, advanced sealing technology and wear-resistant materials are used to effectively extend the service life of the vacuum pump.

#### III. Quality

Quality is the core focus of Geely Boyue engine vacuum pump assembly. High-quality raw materials are selected after strict quality screening and testing to ensure that each component meets strict quality standards. In the production process, a comprehensive quality monitoring system is implemented, real-time monitoring and data analysis of each production link are carried out, and potential quality problems are found and solved in a timely manner.

#### IV. Workmanship

From the appearance to the internal details, the workmanship of the vacuum pump assembly of Geely Boyue engine is exquisite. The shell is made of strong and durable materials, and the surface treatment is smooth and smooth without any defects and burrs. The internal parts are tightly assembled, the connection is firm and reliable, and the line layout is reasonable and neat, which fully reflects the strict requirements of the process and the ultimate control of details.

#### V. Advantages

1. Efficient vacuum: It can quickly and effectively establish the vacuum environment required by the engine, and provide a stable vacuum source for braking power, exhaust gas recirculation and other systems.
2. Low noise operation: Through optimized structural design and advanced noise reduction technology, the noise is extremely low, providing the driver with a quiet and comfortable driving environment.
3. Energy-saving and high-efficiency: The adoption of advanced energy-saving technology not only ensures performance, but also reduces energy consumption and improves the fuel economy of vehicles.
4. Strong adaptability: it can operate stably under various harsh working conditions, and has good high temperature resistance, wear resistance and corrosion resistance.

#### VI. Function

1. Provide braking assistance: Provide vacuum assistance for the braking system, make the brake pedal operation easier and more sensitive, and improve braking safety.
2. Support waste gas recycling: assist the work of the waste gas recycling system, reduce nitrogen oxide emissions, and reduce environmental pollution.
3. Improve engine performance: It helps to optimize the intake and combustion process, and improve the power output and fuel efficiency of the engine.

With its excellent technology, advanced technology, reliable quality, fine workmanship, significant advantages and important role, Geely Boyue engine vacuum pump assembly has become a bright pearl in Geely Boyue's power system, bringing drivers a safer, more comfortable and efficient driving experience.

Product name	engine vacuum pump assembly/Vacuum pump assembly for Geely Boyue engine
Material	steel,Metal
Size	Standard Size
Packing	Neutral Packing
Quality	High Performance
car make	Geely Boyue
