

## Geely Auto Parts/Transmission oil cooler/radiator

Our Product Introduction

for more products please visit us on [auto-partsspare.com](http://auto-partsspare.com)

### Basic Information

- Place of Origin: China zhejiang
- Brand Name: GEELY
- Model Number: 2084000700
- Minimum Order Quantity: 1
- Price: RMB+290+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

### Product Specification

- Product Name: Transmission Oil Cooler
- Color: Silver
- Material: Aluminum Alloy
- Type: Car Interior
- Application: Car Inside,Auto Car
- Package: Standard/Protective
- Car Make: Geely Boyue
- Highlight: **Rigorous Boyue Transmission Oil Cooler,  
Exquisite Boyue Transmission Oil Cooler,  
Smooth Boyue Transmission Oil Cooler**

## Product Description

### Geely Boyue transmission oil cooler

In Geely Boyue's precision power system, the transmission oil cooler plays a vital role, providing a strong guarantee for the smooth operation and long-lasting performance of the vehicle.

#### I. Process

The manufacturing process of Geely Boyue transmission oil cooler is exquisite and rigorous. Advanced stamping, welding and assembly technology is adopted to ensure the accuracy and sealing of each component. With its efficient production line and strict quality control process, every oil cooler can meet excellent process standards.

#### II. Technology

Integrating cutting-edge heat exchange technology, Geely Boyue transmission oil cooler can quickly and effectively reduce the temperature of transmission oil. The unique flow channel design and efficient heat sink structure greatly increase the heat exchange area and improve the heat dissipation efficiency.

#### III. Quality

Quality is the core element of the oil cooler. Choose high-quality materials, such as high-strength aluminum alloys and corrosion-resistant seals, to ensure reliability and durability in various harsh environments. Strict quality testing procedures, including pressure testing, sealing testing and performance testing, ensure that every oil cooler can run trouble-free.

#### IV. Workmanship

From the appearance to the internal details, the workmanship of the oil cooler of Geely Boyue transmission is exquisite. The surface treatment is smooth and uniform, and the welding point is firm and beautiful, without any defects and leakage hazards. The internal flow channel is unobstructed, and the heat sink is evenly distributed, showing a very high manufacturing level.

#### V. Advantages

1. Efficient heat dissipation: It can quickly emit the heat generated by the working of the transmission, keep the oil temperature within the appropriate range, and prevent the performance of the transmission from being reduced and damaged by the high oil temperature.
2. Stable performance: Ensure that the transmission can maintain a stable working temperature under various operating conditions, and improve the smoothness and accuracy of shifting.
3. Extended life: The good heat dissipation effect reduces the thermal wear of the transmission components and extends the service life of the transmission.
4. Adapt to harsh environments: with good vibration resistance, compression resistance and corrosion resistance, able to work stably under complex road conditions.

#### VI. Function

1. Control the oil temperature: maintain the normal working temperature of the transmission oil, ensure the viscosity and lubrication performance of the transmission oil, and reduce friction and wear.
2. Improve efficiency: It helps to improve the transmission efficiency of the transmission, reduce energy loss, and improve the fuel economy of the vehicle.
3. Protective parts: Prevent the parts inside the transmission from being deformed or damaged due to overheating, and ensure the normal operation of the transmission.

With its excellent technology, advanced technology, reliable quality, fine workmanship, significant advantages and important roles, Geely Boyue transmission oil cooler has contributed to the excellent performance and reliability of Geely Boyue, so that drivers can feel comfortable and at ease in every trip.

Product name	transmission oil cooler
Color	Silver
Material	Aluminum Alloy
Application	Car Inside,Auto Car
Type	Car Interior
Package	Standard/Protective
Car make	Geely Boyue
