

## ODM Automatic Transmission Clutch Gearbox Replacement For Geely Boyue

Our Product Introduction

for more products please visit us on [auto-partsspare.com](http://auto-partsspare.com)

### Basic Information

- Place of Origin: China zhejiang
- Brand Name: GEELY
- Model Number: 3020000900
- Minimum Order Quantity: 1
- Price: RMB+5300+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

### Product Specification

- Product Name: Manual Transmission Assembly/gearbox Assembly/transmission Unit
- Color: Silver
- Material: Steel
- Type: Car Interior
- Application: Car Inside,Auto Car
- Package: Standard/Protective
- Car Model: Geely Boyue
- Size: Standard
- Highlight: ODM automatic transmission clutch replacement  
, Geely automatic transmission clutch replacement  
, ODM manual transmission replacement

## Product Description

### Geely Boyue manual transmission assembly

Geely Boyue manual transmission has become a key component of the driver's control experience with its exquisite craftsmanship, leading technology, excellent quality, fine workmanship, significant advantages and important role.

#### Process:

The manufacturing process of Geely Boyue manual transmission can be said to be fine. In the production process, high-precision processing equipment and strict quality control process are adopted. Each part has been carefully polished and accurately assembled to ensure that the internal structure of the transmission is closely matched and runs smoothly.

#### Technology:

Advanced technology integrates every detail of Geely Boyue manual transmission. The optimized gear design and shift mechanism make the shift operation lighter and more accurate. The application of synchronizer technology effectively reduces the impact and noise when shifting gears and improves the comfort of driving.

#### Quality:

Strict control of quality is the core principle of Geely Boyue manual transmission. Choose high-quality materials to ensure that the transmission can withstand long-term use and high-strength working environment. Strict quality inspection standards, from the production of parts to the assembly of finished products, are checked layer by layer to ensure that each transmission has excellent reliability.

#### Workmanship:

The workmanship inside the transmission is fine, the tooth surface of the gear is smooth, and the meshing accuracy is high. The installation position of each part is accurate, and the connection is tight and firm. The manufacturing process of the external shell is also exquisite, the surface treatment is smooth, and the protective coating is uniform, which effectively prevents corrosion and wear.

#### Advantages:

1. Driving pleasure: Provide a more direct power transmission and control experience, so that the driver can better control the vehicle and enjoy the fun of driving.
2. Fuel economy: Due to the high transmission efficiency, compared with the automatic transmission, it can save fuel consumption to a certain extent.
3. Low cost: The manufacturing and maintenance costs are relatively low, saving consumers the cost of car purchase and later use.
4. High reliability: the structure is relatively simple, the failure rate is relatively low, and the maintenance is relatively convenient.

#### Function:

1. Change the transmission ratio: According to different driving speeds and road conditions, the torque and speed of the engine output are changed by shifting gears, so that the vehicle can drive normally under various conditions.
2. Realize reversing: realize the reversing function of the vehicle through specific gear settings.
3. Interrupted power transmission: When shifting and stopping, the power transmission between the engine and the driving wheel can be interrupted to protect the transmission system and the engine.

With its excellent quality and performance, Geely Boyue manual transmission brings a stable, efficient and pleasant driving experience to drivers, and has become a highlight of Geely Boyue models

Product name	manual transmission assembly/gearbox assembly/transmission unit
color	Silver
Material	steel
Type	Car Interior
Application	Car Inside,Auto Car
Car model	Standard/Protective
Package	Standard/Protective
Size	Standard
