

Car TCM Auto Transmission Gearbox Replacement Assembly For Geely Boyue

Our Product Introduction

for more products please visit us on auto-partsspare.com

Basic Information

- Place of Origin: China zhejiang
- Brand Name: GEELY
- Model Number: 3043001200
- Minimum Order Quantity: 1
- Price: RMB+13000+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Product Name: Automatic Transmission Assembly/automatic Gearbox Assembly
- Color: Silver
- Material: Steel
- Type: Car Inerior
- Application: Car Inside,Auto Car
- Package: Standard/Protective
- Car Model: Geely Boyue
- Size: Standard
- Highlight: TCM auto transmission replacement,
Geely Boyue auto transmission replacement,
Geely Boyue car tcm replacement

Product Description

Geely Boyue automatic transmission assembly

With its exquisite craftsmanship, advanced technology, excellent quality, fine workmanship, significant advantages and important role, Geely Boyue automatic transmission brings an unparalleled driving experience to the driver.

Process:

The manufacturing process of Geely Boyue automatic transmission is first-class. In the production process, highly sophisticated processing equipment and strict process flow are used. Each component has undergone fine manufacturing and strict testing to ensure the accurate coordination of the internal structure of the transmission to achieve smooth and efficient operation.

Technology:

The Geely Boyue automatic transmission, which integrates modern cutting-edge technology, shows excellent performance. Intelligent shift control technology can quickly and smoothly complete gear switching according to driving conditions and driver's habits, providing smooth power output. At the same time, advanced hydraulic torque converter technology effectively reduces transmission impact and improves driving comfort.

Quality:

The persistent pursuit of quality is a prominent feature of Geely Boyue automatic transmission. It adopts high-quality materials and a strict quality control system to ensure that the transmission can maintain stable and reliable performance under various complex working conditions. After a long period of durability testing, it can withstand high-intensity use and provide users with long-term service.

Workmanship:

The internal workmanship is fine, and the processing accuracy of gears and transmission parts is extremely high, and the cooperation is close. The layout of oil circuit and circuit is reasonable, which effectively improves the work efficiency and stability of the transmission. The design and manufacturing of the appearance are also very exquisite, showing a high-quality process level.

Advantages:

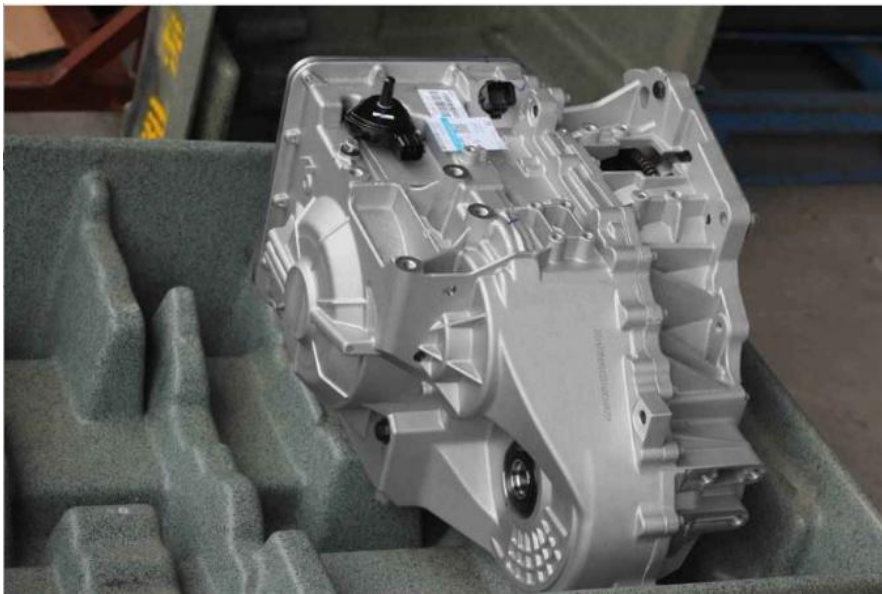

1. Convenient driving: There is no need to change gears manually, which reduces the driver's operating burden and makes driving easier and more comfortable.
2. Adapt to a variety of road conditions: it can automatically adjust the gear according to different road conditions and driving speed to provide the best power output.
3. Improve comfort: The shifting process is smooth and smooth, reducing pauses and frustration, creating a quiet and comfortable riding environment for passengers in the car.
4. Intelligent adaptation: Have the ability to learn and adapt to the driver's driving style, and provide a personalized driving experience.

Function:

1. Automatic adjustment of transmission ratio: automatically select the appropriate gear according to the speed, accelerator pedal position and other factors, so that the engine always works in the best speed range, and improve fuel economy and power performance.
2. Smooth transmission of power: Through devices such as hydraulic torque converters or clutches, the smooth transmission of engine power is realized, and the impact and vibration are reduced.
3. It provides a variety of driving modes, such as economic mode, sports mode, etc., to meet different driving needs and scenarios.

With its excellent performance, Geely Boyue automatic transmission has become the core component of the vehicle power system, bringing a convenient, comfortable and efficient driving experience to the driver, which is a highlight and advantage of the Geely Boyue model

Product name	automatic transmission assembly/automatic gearbox assembly
Color	Silver
Material	steel
Type	Car Interior
Application	Car Inside,Auto Car
Package	Standard/Protective
Car model	Geely Boyue
Size	Standard
