

Geely Boyue EV Auto Parts Hydraulic Fluid Coupling Torque Converter

Our Product Introduction

for more products please visit us on auto-partsspare.com

Basic Information

- Place of Origin: China zhejiang
- Brand Name: GEELY
- Model Number: 3047502100
- Minimum Order Quantity: 1
- Price: RMB+2550+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Product Name: Hydraulic Torque Converter/fluid Torque Converter/hydraulic Coupling Torque Converter
- Color: Black,Silver
- Material: Aluminum Alloy
- Type: Car Inerior
- Application: Car Inside,Auto Car
- Package: Standard/Protective
- Car Model: Geely Boyue
- Size: Standard
- Highlight: **Geely Boyue ev auto parts, ev auto parts Torque Converter, Geely Boyue Fluid Torque Converter**

Product Description

Geely Boyue hydraulic torque converter

Geely Boyue hydraulic torque converter has become a key component in the vehicle power transmission system with its exquisite technology, advanced technology, reliable quality, fine workmanship, significant advantages and important role.

Process:

The manufacturing process of Geely Boyue hydraulic torque converter is fine and complex. High-precision processing equipment and strict production processes are adopted to ensure the optimal dimensional accuracy and surface quality of each component. Advanced casting and forging technology makes the shell and internal impeller of the torque converter have excellent strength and durability.

Technology:

Geely Boyue hydraulic torque converter, which integrates cutting-edge technology, uses optimized hydrodynamic design. Through accurate calculation and simulation, the high efficiency and low loss of liquid flow are realized. Intelligent locking technology can lock in time according to the driving condition, improve transmission efficiency, and reduce fuel consumption.

Quality:

Strict quality control is the quality assurance of Geely Boyue hydraulic torque converter. Choose high-quality materials, such as high-strength alloys and special sealing materials, to ensure stable operation under various working conditions. Strict quality inspection system, from the procurement of raw materials to the production of the finished product, carry out multiple testing processes to ensure that each hydraulic torque converter meets the quality requirements of high standards.

Workmanship:

The internal impeller is made with fine workmanship, and the blade shape and angle are carefully designed and processed to achieve the best liquid flow and torque transfer effect. The installation of the seal is tight and leak-free, and the assembly accuracy between the components is high, which ensures the overall performance and reliability of the torque converter.

Advantages:

1. Cushion shock absorption: It can effectively absorb the vibration and impact of the engine, provide a smooth power output, and improve driving comfort.
2. Torsion effect: In the starting and low-speed stages, the torque output can be increased to make it easier for the vehicle to start and accelerate.
3. Automatic adaptation: There is no need for the driver to operate manually, and the torque transmission can be automatically adjusted according to the load and speed.
4. Protect the transmission system: reduce the rigid connection between the engine and the transmission, and reduce the risk of wear and failure of the transmission system.

Function:

1. Transmission torque: The torque of the engine is transmitted to the transmission through the liquid medium to realize the transmission of power.
2. Celess variable speed: Achieve stepless torque and speed changes within a certain range to make the acceleration of the vehicle smoother.
3. Amplified torque: Under specific conditions, such as starting, the torque output of the engine can be amplified.

With its excellent process, technology, quality, workmanship, advantages and function, Geely Boyue hydraulic torque converter provides strong support for the vehicle's dynamic performance and driving experience, demonstrating Geely's unremitting efforts in technological innovation and quality pursuit.

Product name	hydraulic torque converter/fluid torque converter/hydraulic coupling torque converter
Color	Black,Silver
Material	Aluminum Alloy
Type	Car Inerior
Application	Car Inside,Auto Car
Package	Standard/Protective
Car model	Geely Boyue
Size	Standard
