

OEM Welding Front Suspension Lower Swing Arm For Geely Boyue

Our Product Introduction

Basic Information

- Place of Origin: China zhejiang
- Brand Name: GEELY
- Model Number: 4017005400
- Minimum Order Quantity: 1
- Price: RMB+330+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Product Name: Front Suspension Lower Swing Arm Assembly/front Suspension Lower Control Arm Assembly
- Color: Black
- Material: Steel
- Type: Car Interior
- Application: Car Inside,Auto Car
- Package: Standard/Protective
- Car Model: Geely Boyue
- Size: Standard
- Highlight: OEM lower swing arm ,
Geely Boyue lower swing arm ,
OEM suspension swing arm

Product Description

Geely Boyue front suspension lower swing arm assembly

The right lower swing arm assembly of Geely Boyue front suspension is a key component carefully designed and manufactured, integrating advanced technology, excellent technology and strict quality control.

In terms of process, high-precision stamping and welding processes are adopted to ensure that the connection between the components is tight and firm. Every detail has been carefully carved. From the selection of raw materials to the monitoring of the processing process, it shows the persistent pursuit of quality.

Technically, it draws on the world's leading automobile suspension design concept, combined with Geely's own R&D and innovation, so that the right lower swing arm assembly has excellent mechanical performance and reliability. Advanced material processing technology improves the strength and durability of components.

In terms of quality, we strictly follow international standards and Geely's quality management system, and go through a number of strict testing processes to ensure that each right lower swing arm assembly can meet or even exceed the expected quality standards. Each product carries Geely's commitment to quality and provides a solid guarantee for your driving safety. The workmanship is fine, and the surface treatment is smooth and smooth without any defects. The processing accuracy of each connection part is extremely high, which effectively reduces wear and noise, and improves the comfort and stability of driving.

It has significant advantages, good rigidity and toughness, which can effectively withstand various loads and shocks in the driving of the vehicle and adapt to the challenges of different road conditions. At the same time, the accurate design and manufacturing process ensures the positioning accuracy of the wheels and improves the handling performance and steering accuracy of the vehicle.

In terms of function, the right lower swing arm assembly of the Geelybo front suspension plays a crucial role. It connects the wheels and the body, transmits the impact of the wheels on the road to the body, and maintains the correct position and movement trajectory of the wheels during driving, so as to ensure the stability and safety of the vehicle and bring you a comfortable and smooth driving experience.

Whether it is the shuttle of urban roads or the conquest of rugged mountain roads, the right lower swing arm assembly of Geely Boyue front suspension is always your solid backing to escort your every trip.

Product name	front suspension lower swing arm assembly/front suspension lower control arm assembly
Color	Black
Material	steel
Type	Car Interior
Application	Car Inside,Auto Car
Package	Standard/Protective
Car model	Geely Boyue
Size	Standard
