

Geely Boyue Right Rear Door Glass Lifter Motor Auto ECM Electronics Control Module

Our Product Introduction

for more products please visit us on auto-partsspare.com

Basic Information

- Place of Origin: China zhajiang
- Brand Name: GEELY
- Model Number: 6608069359
- Minimum Order Quantity: 1
- Price: RMB+150+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Product Name: Right Rear Door Glass Lifter Motor With Control Module
- Fuel Type: Electric
- Color: Black
- Type: Car Electrical Parts
- Material: Plastic And Aluminum
- Car Make: Geely Boyue
- Highlight: **Geely Boyue auto ecm electronics, auto ecm electronics Glass Lifter Motor, car electronic control module**

Product Description

Geely Boyue right rear door glass lifter motor with control module

Geely Boyue right rear door glass lifter motor with control module is an important component carefully designed and manufactured, with the following processes, technology, quality, workmanship, advantages and functions:

Process and technology:

- Advanced manufacturing technology is adopted to ensure the high accuracy and reliability of motors and control modules.
- The motor has stable performance and can provide enough power to achieve the smooth lifting of the window.
- The control module uses intelligent technology to accurately control the operation of the motor, such as one-click window lifting, anti-clip and other functions.

Quality and workmanship:

- It has undergone strict quality testing to ensure its stability and durability under various conditions of use.
- The selection of high-quality materials enables the components to have good wear resistance and anti-aging performance, and prolong the service life.
- Fine workmanship ensures the perfect combination of the motor and the control module and reduces the possibility of failure.

Advantages:

- Convenient operation: It allows drivers and passengers to easily control the rise and fall of the right rear door glass, which improves the convenience of use.
- One-click lift function: just press the button, the window can automatically rise or fall, without the need to keep holding down the switch.
- Anti-clip function: It effectively prevents the window from clipping into the passenger's hand or other objects during the rise, which improves safety.

Function:

- Realize the normal rise and fall of the window: provide drivers and passengers with the convenience of ventilation and observation of the external environment.
- Improve the comfort of the vehicle: Passengers can adjust the window height at any time according to their own needs.
- Enhance the overall quality of the vehicle: As an important functional component, its good performance helps to improve the overall quality and user experience of the vehicle.

In a word, the control module of Geely Boyue right rear door glass lifter with control module brings convenience, safety and comfort to the vehicle's window lifting operation with its exquisite craftsmanship, reliable technology, excellent quality and fine workmanship, which is an indispensable and important part of Geely Boyue's door system.

Product name	right rear door glass lifter motor with control module
Fuel type	Electric
Color	Black
Type	Car Electrical Parts
Material	plastic and aluminum
car make	Geely Boyue
