- Place of Origin: China zhajiang
- Brand Name: GEELY
- Model Number: 6032017500742
- Minimum Order Quantity: 1
- Price: RMB+130+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Product Name: Sundries Box/glove Compartment/storage Box
- Color: Black
- Material: Plastic
- Type: Car Inerior
- Application: Car Inside,Auto Car
- Package: Standard/Protective
- Car Model: Geely Boyue
- Size: Standard
- Highlight: **Geely Bo yue Car Interior Parts, Car Interior Parts Debris Box, electric car accessories Debris Box**

Product Description

Geely Boyue sundries box

Geely Boyue's debris box has a good performance in terms of technology, technology, quality, workmanship, etc., and has the following characteristics:

In terms of technology: the design and manufacturing process of the debris box is relatively fine, paying attention to details. Its appearance usually matches the overall style of the car, with smooth edges, no obvious defects, and smooth switch operation.

Technical aspects: The debris boxes of some models may adopt slow-down technology to open slowly to avoid shock or noise caused by sudden fall.

Quality: After strict quality control, it has good durability, can withstand the test of daily use, and maintain good performance for a long time.

Workmanship: The installation is stable, the connection with the surrounding components is close, and there is no looseness or excessive gap.

Advantages and functions:

- Increase storage space: Provide additional storage area for the car, which can store various items, such as documents, wallets, mobile phones, small tools, etc., to make the items in the car more orderly and keep the environment in the car clean and tidy.
- Easy to access: The debris box is located in a convenient position in the car. Drivers and passengers can easily pick up or store items when needed, without significantly changing their posture, avoid distracting driving attention, and improve driving safety.
- Protect the safety of items: Some important or fragile items can be placed in it to reduce the possibility of damage caused by bumps or collisions during driving.
- Improve the texture of the car: its good craftsmanship and workmanship
