Product Description

Geely Boyue right rear car door and window frame c-pillar decorative panel

Geely Boyue right rear car door and window frame C-pillar decorative board has shown excellent level in technology, quality, workmanship and other aspects, with significant advantages and important roles.

In terms of craftsmanship:

High-precision mold manufacturing is used to ensure that the size of the decorative board is accurate and the fit with the body is extremely high. The surface has been finely polished and treated, showing a smooth and delicate texture.

Technical aspects:

Advanced injection molding technology is used to make the material of the decorative board have good toughness and strength. Special coating technology may also be used to enhance its corrosion resistance and wear resistance.

Quality aspects:

Choose high-quality plastics or composite materials, after strict quality testing, can withstand various pressures and shocks in daily use, and is not easy to deform or break.

Workmanship:

The details are exquisite, the edges are neat and smooth, and there are no burrs and flaws. The installation mount is reasonably designed, firmly installed and tightly, effectively avoiding loosening and abnormal noise.

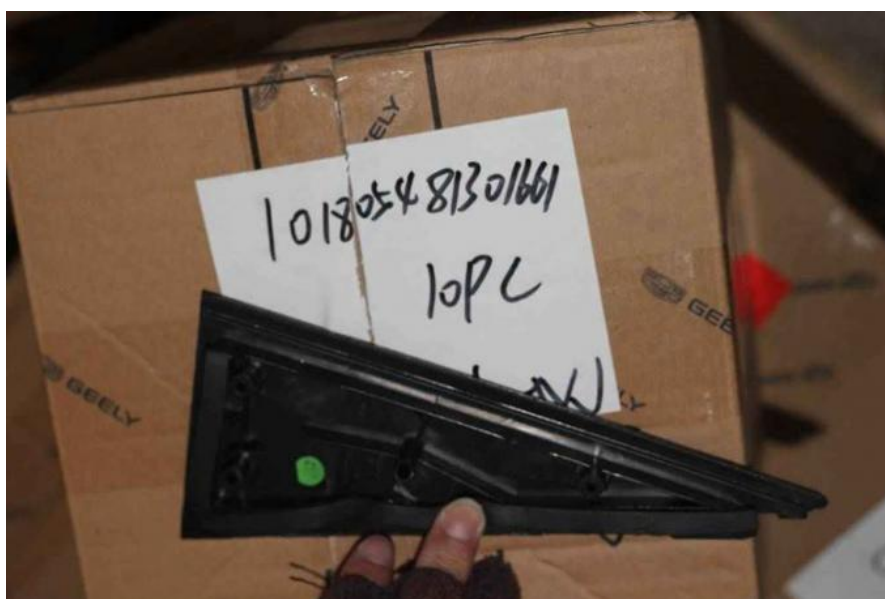

Advantages:

1. Improve the overall beauty of the vehicle, make the body lines smoother, and increase the sense of fashion and luxury of the vehicle.
2. Protect the C-pillar area, reduce the erosion of dust, rain, etc., and extend the service life of the body.
3. It is unified with other decorative parts in the car to create a harmonious and comfortable interior environment.

Function:

1. As part of the appearance of the body, it plays the role of decoration and beautification, making the vehicle more attractive.
2. Enhance the stability of the body structure and provide certain support and protection for the windows.
3. To a certain extent, it reduces wind noise, improves the quietness in the car, and improves driving comfort.
