

Geely Boyue Car Electrical Parts Front Combination Lamp Assembly Injection Molding

Our Product Introduction

Basic Information

- Place of Origin: China zhajiang
- Brand Name: GEELY
- Model Number: 7051048600
- Minimum Order Quantity: 5
- Price: RMB+2739+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Product Name: Combination Light Assembly/Front Combination Lamp Assembly
- Fuel Type: Electric
- Color: Black
- Type: Car Electrical Parts
- Material: Plastic
- Car Make: C
- Highlight: Car Electrical Parts Combination Lamp, Injection Molding Car Electrical Parts, Injection Molding combination lamp car

Product Description

Geely Bo Yueqian Combination Light Assembly

Geely Boyue front combination lamp assembly shows excellent quality in terms of technology, technology, quality, workmanship, etc., and has significant advantages and important roles.

In terms of craftsmanship:

It adopts high-precision molds and advanced injection molding technology to ensure that the shape of the lamp shell is accurate, the surface is smooth and flat, and there are no flaws and bubbles. The lampshade adopts a special coating process to enhance light transmission and scratch resistance.

Technical aspects:

It integrates advanced lighting technologies, such as LED light source technology, to provide brighter, more energy-efficient and more durable lighting effects. The intelligent lighting control system can automatically adjust the light brightness and angle according to different driving environments to improve driving safety.

Quality aspects:

High-quality materials, such as high-temperature-resistant, aging-resistant plastics and high-quality light bulbs, are selected after strict quality testing and durability testing to ensure stable and reliable operation under various complex climate and road conditions.

Workmanship:

The details are finely processed, the line layout inside the lamp group is neat and orderly, the connection is firm, and the waterproof and dustproof performance is excellent. The installation structure of the lamps is reasonably designed, closely fits the body, and is seamless to ensure the overall beauty.

Advantages:

1. Excellent lighting performance: Provide a clear and wide lighting range, so that drivers can have a good field of vision at night or inclement weather conditions, and effectively reduce visual blind spots.
2. Unique appearance design: It is perfectly integrated with the body shape of Geely Boyue to enhance the overall beauty and recognition of the vehicle and improve the grade of the vehicle.
3. Energy saving and environmental protection: The use of LED light sources reduces energy consumption, reduces the electric load of vehicles, and is more environmentally friendly.
4. High reliability: After strict quality control and testing, the probability of failure is reduced and the maintenance cost is reduced.

Function:

1. Headlights: Provide main lighting for driving at night, illuminate the road ahead, and help drivers see the road conditions and obstacles.
2. Turn signal: Instruct other road users the driving direction of the vehicle to ensure traffic safety when steering.
3. Daytime driving lights: improve the visibility of vehicles during the day and reduce the probability of traffic accidents.
4. Fog lamp: Under low visibility conditions such as foggy days and rainy days, it provides penetrating lighting and enhances the recognition of the road.

With its exquisite craftsmanship, advanced technology, reliable quality, fine workmanship, and significant advantages and important roles, Geely provides excellent lighting and safety guarantee for drivers, but also become one of the highlights of the vehicle's appearance.

Product name	Combination Light Assembly/Front Combination Lamp Assembly
Fuel type	Electric
Color	Black
Type	Car Electrical Parts
Material	plastic
