

Geely Boyueqian Car AC Control Switch Air Conditioning System Components

Our Product Introduction

for more products please visit us on auto-partsspare.com

Basic Information

- Place of Origin: China zhajiang
- Brand Name: GEELY
- Model Number: 8025002500894
- Minimum Order Quantity: 20
- Price: RMB+640+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Product Name: Air Conditioning Control Switch
- Color: Black
- Type: Car Air Conditioning And Airbags
- Package: Cartoon
- Quality: Excellent Quality
- Car Make: Geely Boyue
- Highlight: **Geely Boyueqian car ac control switch ,
car ac control switch components ,
Geely Boyue car ac components**

Product Description

Geely BoYue air conditioning control switch

Geely Boyueqian air conditioning control switch has the following characteristics:

In terms of technology, the design is exquisite, the button layout is reasonable, the operation is convenient and intuitive, and conforms to ergonomic principles, so that you can easily adjust the air conditioner during driving.

Technically, advanced automatic control technology is adopted. Press the AUTO button in the manual state, and the air conditioning controller can enter AUTO mode. At this time, the air volume, air outlet mode and air inlet mode of the blower will be automatically adjusted to a comfortable state suitable for the human body.

The quality is reliable. After strict quality inspection, it ensures the stability and durability of the switch and can run stably for a long time.

The workmanship is fine, the connection between the various components is close, and the texture is good, showing a high level of manufacturing technology.

There are many advantages. It is equipped with a separate setting function of left and right dual-zone temperature, taking into account the comfort needs of different passengers. It is also equipped with an AQS air quality sensor, which can detect the air quality outside the car in real time, so as to automatically switch the internal and external circulation when the outdoor air quality is poor. Some models are equipped with an air purifier in the car. The earth has improved the air quality in the car.

Its function is mainly to control the functions of the air conditioning system in front of the vehicle, such as: press the refrigeration switch, the indicator light turns on, and press it again to turn off the refrigeration; press the A/C MAX button, the air conditioning system will run according to the maximum refrigeration mode; the air volume of the air conditioning blower can be manually set through the air volume plus or minus button; Rotating the left temperature knob and the right temperature knob can adjust the temperature on the driver's side and the front passenger side respectively; the internal/external circulation switching button can realize the manual switching of the internal and external circulation of the air in the car; press the DUAL button to switch between the dual-zone and single-zone modes; the ION button is responsible for controlling air purification. Function.

In addition, Geely Boyue's air conditioning system also has some intimate functions. For example, in the automatic internal circulation mode, it will automatically switch to the external cycle after 20 minutes, and after 40 seconds, it will automatically switch to the internal cycle, and the cycle in turn to achieve the effect of ventilation. This helps to keep the air in the car fresh and provide a comfortable and healthy interior environment for drivers and passengers. At the same time, the setting of the rear air outlet can also allow the rear passengers to enjoy the appropriate temperature.

product name	air conditioning control switch
color	black
type	Car Air Conditioning And Airbags
package	cartoon
quality	excellent quality
