

OEM Car Antifreeze Coolant Automotive Cooling System for Geely Boyue Engine

Our Product Introduction

for more products please visit us on auto-partsspare.com

Basic Information

- Place of Origin: China zhajiang
- Brand Name: GEELY
- Model Number: 889885252
- Minimum Order Quantity: 200
- Price: RMB+36+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Product Name: Engine Coolant/antifreeze/antifreeze Coolant
- Color: Black
- Size: Customers Request
- Type: Car Maintenance Accessories
- Application: Lubricate
- Package: Carton Box / Color Box
- Highlight: **OEM car antifreeze coolant,
Geely Boyue Engine car antifreeze coolant,
Geely Boyue automotive cooling system**

Product Description

Geely Boyue engine coolant

Process:

Geely Boyue engine coolant adopts advanced blending technology to ensure the accurate proportion and uniform mixing of various components. In the production process, the high-standard process is strictly followed. From the screening of raw materials to the filling of the finished product, every link is carefully controlled to ensure the quality of the coolant.

Technology:

- The use of efficient anti-corrosion technology can effectively protect the metal components in the engine cooling system, such as aluminum, copper, cast iron, etc., prevent corrosion and corrosion, and prolong the service life of the engine.
- With excellent thermal stability technology, the coolant can maintain stable performance even in a high-temperature environment, which is not prone to spoiling or failure, ensuring the normal operation of the cooling system.
- Unique anti-scaling technology is adopted to prevent the coolant from producing scale during the circulation process, thus maintaining the good heat dissipation performance of the cooling system.

Quality:

- It has undergone strict quality testing, including chemical analysis, physical performance testing and durability testing in simulated use environments to ensure that it meets high-quality standards.
- High-quality raw materials, such as high-purity ethylene glycol, deionized water and efficient additives, are selected to ensure the quality of the coolant from the source.

Workmanship:

- The packaging design is exquisite and the logo is clear, which is easy for users to identify and use.
- The bottle mouth is tightly sealed to prevent the leakage of coolant and the invasion of external impurities.

Advantages:

- Excellent low temperature protection performance can prevent the coolant from freezing and avoid damage to the engine under cold weather conditions.
- Excellent heat dissipation capacity can quickly take away the heat generated by the engine, keep the engine running within the appropriate temperature range, and improve the working efficiency and performance of the engine.
- Be environmentally friendly, meet environmental protection requirements, and reduce environmental pollution.

Function:

- The primary function is to cool the engine and take away a large amount of heat generated when the engine is working to prevent the engine from overheating, so as to ensure the normal operation of the engine.
- It effectively prevents the rust and corrosion of the metal parts of the cooling system and protects the internal structure of the engine.
- It can also prevent the formation of scale and sediment in the cooling system, keep the cooling system clean and smooth, and ensure the heat dissipation effect.

In a word, with its exquisite technology, advanced technology, reliable quality, fine workmanship, significant advantages and important role, Geely Boyue engine coolant provides reliable protection and excellent performance support for the engine of Geely Boyue Automobile, which is one of the key guarantees for the normal operation and durability of the vehicle.

Product name	engine coolant/antifreeze/antifreeze coolant
Color	Black
Size	Customers Request
Type	Car Maintenance Accessories
Application	lubricate
Package	carton box / Color Box
