

Geely Geometry A EV Car Electrical Parts Accessories Thermal Management Assembly

Our Product Introduction

for more products please visit us on auto-partsspare.com

Basic Information

- Place of Origin: China zhajiang
- Brand Name: GEELY
- Model Number: 1013003900
- Minimum Order Quantity: 1
- Price: RMB+18081+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Fuel Type: Electric
- Color: Silver
- Type: Car Electrical Parts
- Product Name: Front Electric Drive Assembly
- Material: #1Steel
- Car Make: Geely Geometry A
- Highlight: Geely Geometry Car Electrical Parts, Car Electrical Parts assembly, Geely Geometry ev car accessories

Product Description

Geely Geometry A front electric drive assembly

Process:

Geely Geometry A front-electric drive assembly adopts a sophisticated manufacturing process. In the production process, high-precision machining technology is used to ensure that the dimensional accuracy and surface quality of each component reach an excellent level. The advanced assembly process enables all components to be closely integrated, ensuring the overall performance and reliability of the assembly.

Technology:

- It is equipped with efficient permanent magnet synchronous motor technology, which can achieve fast power response and efficient energy conversion.
- Advanced electronic control technology is adopted to accurately control the operation of the motor and optimize the power output and energy consumption management.
- It has intelligent thermal management technology to effectively control the working temperature of the motor and electronic control system to ensure stable operation under various working conditions.

Quality:

- Strictly follow international quality standards and the strict quality control system of Geely Automobile, and carry out strict quality inspection on every production link.
- The selection of high-quality materials and components ensures the quality and durability of the front electric drive assembly from the source.

Workmanship:

- The details are finely handled, the wiring is neat and standardized, and the connection is solid and reliable.
- The shell is exquisitely designed with good protective performance and heat dissipation effect.

Advantages:

- Powerful power output provides excellent acceleration performance and driving power for the vehicle.
- Efficient energy utilization efficiency helps to extend the range of the vehicle.
- The low-noise and low-vibration operation characteristics improve the comfort of driving.
- It has good reliability and stability, which reduces repair and maintenance costs.

Function:

- As the power core of the vehicle, it provides the driving force for Geely Geometry A.
- It realizes the efficient conversion of electrical energy to mechanical energy, so that the vehicle can drive smoothly.
- Work with other systems of the vehicle to ensure the performance and safety of the vehicle.

In a word, with its exquisite technology, advanced technology, reliable quality, fine workmanship, remarkable advantages and important roles, Geely Geometry A front electric drive assembly brings excellent power performance and reliable driving guarantee to the vehicle, which is the key to the excellent performance of Geely Geometry A.

Fuel type	Electric
Color	silver
Type	Car Electrical Parts
Product name	front electric drive assembly
Material	#1Steel
car make	Geely Geometry A
