

## Geely Geometry A Ev Car Accessories Automotive Electrical Components Electronic Water Pump

### Our Product Introduction

#### Basic Information

- Place of Origin: China zhajiang
- Brand Name: GEELY
- Model Number: 1069000800
- Minimum Order Quantity: 20
- Price: RMB+330+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

#### Product Specification

- Fuel Type: Electric
- Color: Black
- Type: Car Electrical Parts
- Product Name: Electronic Water Pump
- Material: #1Steel
- Car Make: Geely Geometry A
- Highlight: Geely ev car accessories,  
Geometry A ev car accessories,  
Geometry A automotive electrical components

## Product Description

### Geely Geometry A Electronic Water Pump

#### Process:

The production process of Geely Geometry A electronic water pump is exquisite, using high-precision mold manufacturing and advanced injection molding technology to ensure the dimensional accuracy and sealing of the pump shell. In the assembly process, we strictly follow the standardized process and use automated equipment for accurate assembly to ensure the consistency and reliability of the product.

#### Technology:

- It adopts brushless motor technology, which is characterized by high efficiency, low noise and long life.
- Using intelligent control technology, the speed and flow rate of the pump can be adjusted in real time according to the working state and temperature of the engine to achieve accurate cooling control.
- It has an efficient impeller design, optimizes the water flow channel, and improves the work efficiency of the pump.

#### Quality:

- Follow strict quality standards and strictly screen raw materials to ensure their high temperature resistance, corrosion resistance and high strength performance.
- After many rounds of strict quality testing, including performance testing, durability testing and sealing testing, etc., to ensure the stable operation of the product under various harsh conditions.

#### Workmanship:

- The appearance is exquisite, the interface is smooth and smooth, and there are no burrs and defects.
- The internal structure is compact, the parts are firmly installed, and the wiring is neat and orderly.

#### Advantages:

- Compared with traditional mechanical pumps, it can control the coolant flow more accurately, improve the efficiency of the cooling system, and optimize the engine performance.
- It is small in size, light in weight, easy to install and lay out, and save space in the car.
- The low operating noise improves the quietness of the car.

#### Function:

- The main function is to continuously circulate the coolant when the engine is running, take away the heat generated by the engine, and keep the engine within the appropriate operating temperature range.
- It helps to quickly preheat the engine and reduce wear and emissions during cold start.
- It can provide a stable and appropriate cooling effect and extend the engine life under different working conditions of the vehicle, such as high-speed driving, idle speed and parking.

In short, Geely Geometry A electronic water pump provides an efficient, stable and intelligent cooling solution for the power system of Geely Geometry A with its excellent technology, advanced technology, reliable quality, fine workmanship, significant advantages and important role.

Fuel type	Electric
Color	black
Type	Car Electrical Parts
Product name	Electronic Water Pump
Material	#1Steel
car make	Geely Geometry A
