

2028000100 Car Acceleration Pedal For Geely Geometry A Automobile

Our Product Introduction

Basic Information

- Place of Origin: China zhajiang
- Brand Name: GEELY
- Model Number: 2028000100
- Minimum Order Quantity: 30
- Price: RMB+135+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Product Name: Acceleration Pedal/Gas Pedal/Throttle Pedal
- Color: Black
- Material: Plastic
- Type: Car Interior
- Application: Car Inside,Auto Car
- Package: Standard/Protective
- Car Make: Geely Geometry A
- Size: Standard
- Highlight: 2028000100 car acceleration pedal,
Geely car acceleration pedal,
Geely car pedal accelerator

Product Description

Geely Geometry A Acceleration Pedal

Process:

The manufacturing process of Geely Geometry A acceleration pedal is fine and rigorous. It adopts advanced stamping and die-casting technology to ensure the structural strength and stability of the pedal. In terms of surface treatment, the high-quality coating process is used, which not only increases the wear resistance of the pedal, but also makes it have a good touch and anti-skid performance.

Technology:

- Equipped with high-precision sensor technology, it can accurately sense the force and speed of the driver's pedal, and quickly and accurately transmit this information to the vehicle's control system to achieve accurate power output response.
- Intelligent linear control technology is adopted to show a smooth and linear relationship between the travel of the pedal and the acceleration of the vehicle, providing drivers with a more natural and comfortable driving experience.

Quality:

- Strictly follow international quality standards and the strict quality inspection system of Geely Automobile. From the selection of raw materials to the leaving of the finished product, every link has undergone strict quality inspection to ensure the reliability and durability of the pedal.
- Made of high-strength and wear-resistant materials, it can withstand long-term and frequent use without deformation or damage.

Workmanship:

- The details are exquisite, and the edges of the pedal are round and smooth, and there are no sharp edges and corners to avoid scratching the feet.
- The installation interface is accurately matched to ensure that the pedal is firmly installed and there is no loosening.

Advantages:

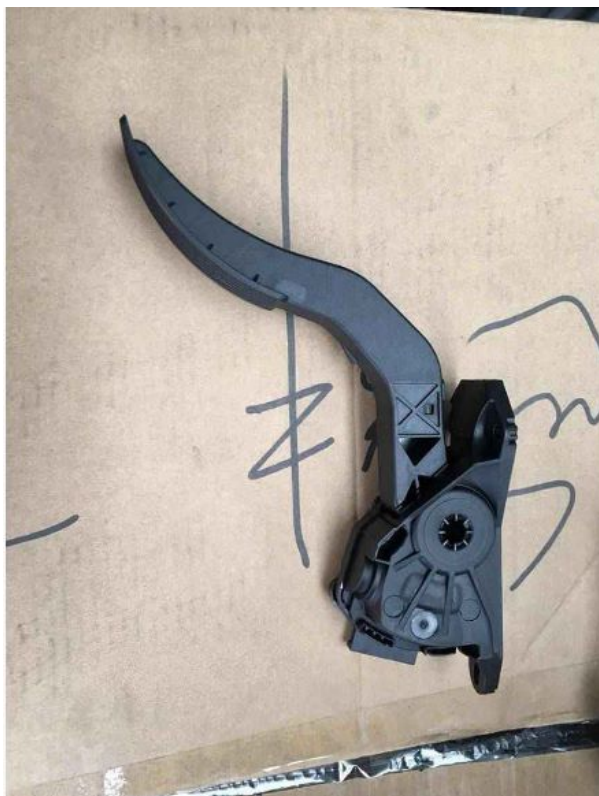

- Excellent sensitivity and response speed allow the driver to control the acceleration of the vehicle more delicately and enhance the handling and safety of driving.
- Ergonomic design, the angle and position of the pedal are in line with the foot habits of most drivers, reducing driving fatigue.
- High-quality manufacturing and material selection give it a long service life and reduce the cost of maintenance and replacement.

Function:

- As an important part of the driver to control the acceleration of the vehicle, it converts the driver's operating intention into an electrical signal and transmits it to the vehicle's power system, so as to realize the acceleration and speed adjustment of the vehicle.
- Help drivers flexibly adjust the speed under different road conditions and adapt to various driving scenarios such as urban congestion and high-speed driving.

In short, with its exquisite technology, advanced technology, reliable quality, fine workmanship, significant advantages and important roles, Geely Geometry A acceleration pedal provides drivers with a comfortable, accurate and safe acceleration control experience, and is an important part of Geely Geometry A's excellent driving performance.

Product name	Acceleration Pedal/Gas Pedal/Throttle Pedal
Color	Black
Material	plastic
Type	Car Interior
Application	Car Inside,Auto Car
Package	Standard/Protective
Car make	Geely Geometry A
Size	Standard
