

Precision Machining Geely Car Interior Parts Electric Car Assembly Kit Drive Motor Radiator

Our Product Introduction

for more products please visit us on auto-partsspare.com

Basic Information

- Place of Origin: China zhajiang
- Brand Name: GEELY
- Model Number: 2069028200
- Minimum Order Quantity: 20
- Price: RMB+471+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Product Name: Drive Motor Radiator/drive Motor Cooler
- Color: Silver
- Material: Aluminum Alloy
- Type: Car Interior
- Application: Car Inside,Auto Car
- Package: Standard/Protective
- Size: Standard
- Car Make: Geely Geometry A
- Highlight: **precision machining Car Interior Parts,
Car Interior Parts Motor Radiator,
electric car assembly kit Motor Radiator**

Product Description

Geely geometry A drive motor radiator

In the core components of Geely Geometry A, the drive motor radiator undoubtedly plays a crucial role. It is not only the key to ensuring the efficient operation of vehicles, but also an important symbol of the excellent technology and leading technology of Geely Automobile.

Exquisite craftsmanship

The Geely Geometry A drive motor radiator adopts advanced manufacturing technology, and every detail has been carefully carved. From the selection of raw materials to high-precision processing, it all reflects Geely's persistent pursuit of quality. Its precise welding technology ensures the seal and stability of the radiator, effectively prevents the leakage of coolant, and provides a long-lasting and reliable heat dissipation guarantee for the motor.

Cutting-edge technology

This radiator integrates a number of cutting-edge technologies and adopts efficient heat exchange technology, which can quickly transfer the heat generated by the driving motor, so that the motor can always be kept within the ideal operating temperature range. The unique air duct design further optimizes air circulation, improves heat dissipation efficiency, reduces energy consumption, and adds a strong guarantee for the vehicle's range.

Excellent quality

In terms of quality control, the Geely geometric A drive motor radiator strictly follows international standards. It has undergone a series of rigorous tests and inspections, including durability tests in extreme environments such as high temperature, high pressure and vibration, to ensure its stable operation in various complex road conditions. Every production link has professional quality monitoring personnel to check and not let go of any minor defects that may affect product quality.

Fine workmanship

The appearance design of the radiator is simple and generous, the lines are smooth, and it is perfectly integrated with the overall shape of the vehicle. The internal structure is compact and reasonable, and the layout is scientific. It makes full use of the limited space and achieves the best heat dissipation effect. The installation of each part is accurate, reflecting the fine workmanship of Geely Automobile.

Significant advantages

Compared with the same type of products, the Geely Geometry A drive motor radiator has obvious advantages. First of all, its heat dissipation performance is better, which can quickly reduce the temperature of the motor in a short time and improve the working efficiency and service life of the motor. Secondly, it has good corrosion resistance, can adapt to various harsh working environments, and maintain good performance for a long time. In addition, its low-noise design provides drivers with a quieter and more comfortable driving experience.

An important role

The role of Geely Geometry A drive motor radiator should not be underestimated. It effectively maintains the normal working temperature of the driving motor and avoids motor performance decline, failure or even damage caused by overheating. Stable heat dissipation performance helps to improve the output power and torque of the motor and enhance the power performance of the vehicle. At the same time, good heat dissipation effect can also extend the service life of the battery and improve the overall reliability and safety of the vehicle.

In a word, with its exquisite technology, cutting-edge technology, excellent quality, fine workmanship, significant advantages and important roles, Geely Geometry A drive motor radiator has become one of the core competitiveness of Geely Geometry A cars, bringing users a safer, comfortable and efficient driving experience.

Product name	drive motor radiator/drive motor cooler
Color	Silver
Material	Aluminum Alloy
Type	Car Interior
Application	Car Inside,Auto Car
Package	Standard/Protective
Size	Standard
car make	Geely geometry A
