

Geely Aftermarket Electric Vehicle Spare Parts E Car Accessories Cooling Fan ODM

Our Product Introduction

for more products please visit us on auto-partsspare.com

Basic Information

- Place of Origin: China zhajiang
- Brand Name: GEELY
- Model Number: 2078017000
- Minimum Order Quantity: 20
- Price: RMB+672+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Product Name: Cooling Fan/Cooling Blower
- Color: Black
- Material: Plastic
- Type: Car Interior
- Application: Car Inside,Auto Car
- Package: Standard/Protective
- Car Model: Geely Geometry A
- Size: Standard
- Highlight: Geely aftermarket electric vehicle spare parts,
ODM electric vehicle spare parts,
Geely aftermarket e car accessories

Product Description

Geely Geometry A Cooling Fan

The relevant characteristics of Geely Geometry A cooling fan are as follows:

Process: The manufacturing process of the cooling fan is exquisite, and it has undergone strict production process and quality testing to ensure its stable and reliable performance.

Technical: It adopts advanced technical design, which can effectively dissipate heat for the relevant components of the vehicle. It works closely with the vehicle's heat dissipation system to achieve an efficient cooling effect.

Quality: It has high-quality materials and excellent manufacturing quality to ensure reliability and durability in long-term use. After strict quality control, the fan can withstand various working conditions.

Workmanship: The production is fine and the details are handled properly. Its structural design is reasonable, it can be perfectly integrated with the overall system of the vehicle, and the installation is stable and the operation is smooth.

Advantages:

1. **Efficient heat dissipation:** It can quickly take away the heat generated by the driving motor and other components and maintain it within the appropriate operating temperature range, which helps to ensure the performance and life of the motor.
2. **Strong stability:** stable operation helps to maintain the consistency of heat dissipation effect and avoid insufficient heat dissipation caused by fan failure.
3. **Low noise:** The noise generated at work is small, providing a relatively quiet environment for the car.
4. **Energy saving:** The design is reasonable, which can meet the needs of heat dissipation while reducing energy consumption as much as possible, and has little impact on the range of the vehicle.

Function: The main function is to provide cooling services for the driving motor and other components of Geely Geometry A. Through the rotation of the fan, the air flow is forced, the heat dissipation is accelerated, and key components such as the driving motor are prevented from overheating. This can ensure that the drive motor runs in an efficient and stable state, improve the performance and reliability of the vehicle, and extend the service life of related components. At the same time, effective cooling also helps to maintain the normal working temperature of the overall vehicle system and ensure the safety and stability of the vehicle.

Product name	Cooling Fan/Cooling Blower
Color	Black
Material	plastic
Type	Car Interior
Application	Car Inside,Auto Car
Package	Standard/Protective
Car model	Geely Geometry A
Size	Standard
