

## 6608125013 Car Interior Parts for Geely Geometry A EV Reducer Assembly

Our Product Introduction

for more products please visit us on [auto-partsspare.com](http://auto-partsspare.com)

### Basic Information

- Place of Origin: China zhajiang
- Brand Name: GEELY
- Model Number: 6608125013
- Minimum Order Quantity: 1
- Price: RMB+4112+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

### Product Specification

- Product Name: Reducer Assembly/gear Reducer Assembly/reduction Gear Set
- Color: Silver
- Material: High-strength Alloy
- Type: Car Interior
- Application: Car Inside,Auto Car
- Package: Standard/Protective
- Car Model: Geely Geometry A
- Size: Standard
- Highlight: **Car Interior Parts Reducer Assembly, Car Interior Parts Reducer, ev reducer Assembly**

## Product Description

### Geely geometry A reducer assembly

As a key component of the vehicle power system, Geely Geometry A reducer integrates exquisite technology, advanced technology, excellent quality, fine workmanship, significant advantages and important roles, providing strong support for the efficient operation and excellent performance of the vehicle.

Exquisite craftsmanship:

The production process of Geely Geometry A reducer assembly is first-class. High-precision machining technology is adopted to ensure that the dimensional accuracy of each component reaches the micron level, and the tolerance is accurate. In the assembly process, the standardized process is strictly followed, and each step is carefully debugged and tested to ensure the overall performance and reliability of the assembly.

Advanced technology:

The most cutting-edge transmission technology and design concepts are used. The optimized gear tooth shape and tooth surface treatment effectively reduces the friction loss in the transmission process and improves the transmission efficiency. At the same time, advanced lubrication and cooling systems are used to ensure that the reducer can maintain a good working temperature and extend the service life under various working conditions.

Excellent quality:

From the selection of raw materials, we will strictly check and only choose high-quality materials that meet high standards. In the manufacturing process, a comprehensive quality monitoring system is implemented, and each production link is monitored in real time through advanced testing equipment and strict testing standards to ensure zero defects in product quality.

Fine workmanship:

Every detail shows the ultimate fineness. The surface treatment of the parts is smooth and smooth without any burrs and defects. The cooperation at the interface is close, reflecting the superb manufacturing process level. The internal oil and airway layout is reasonable, neat and orderly, showing a rigorous design and manufacturing attitude.

The advantages are obvious:

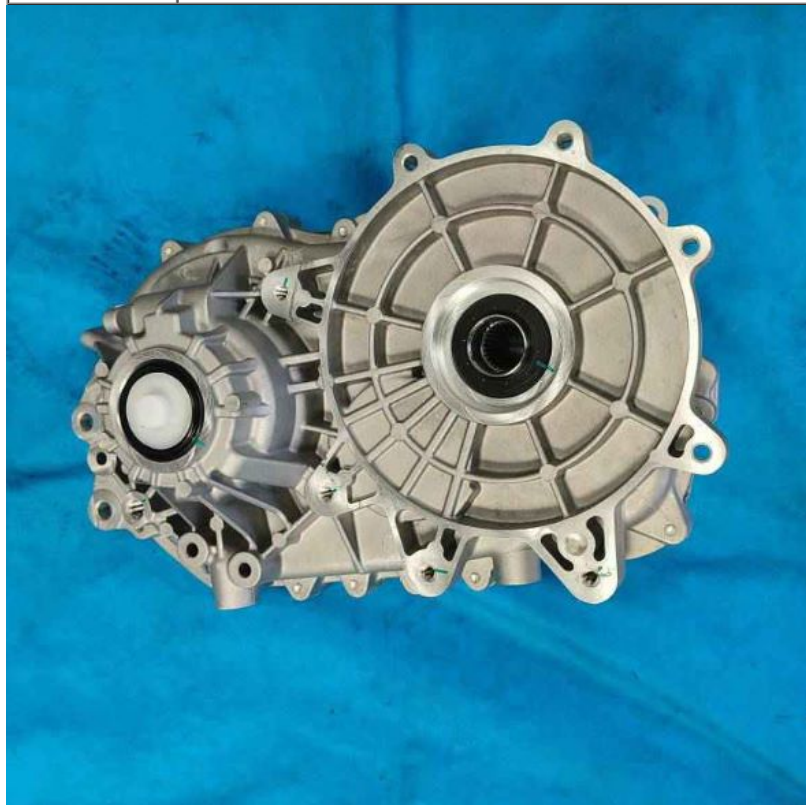

It has efficient transmission efficiency, which can transmit the power of the motor to the wheels to the maximum extent, and improve the acceleration performance and range of the vehicle. At the same time, its compact structural design takes up little space, which provides greater flexibility for the overall layout of the vehicle. In addition, the low-noise and low-vibration operating characteristics provide a comfortable driving experience for drivers.

Key to the role:

The Geely Geometry A reducer assembly plays a vital role in the operation of the vehicle. It converts the high speed of the motor into a suitable torque output to meet the needs of different driving conditions of the vehicle. Through accurate transmission ratio control, the smooth acceleration, high-speed driving and energy recovery of the vehicle are realized, the energy utilization efficiency is improved, and the energy consumption is reduced.

In summary, with its excellent technology, advanced technology, reliable quality, fine workmanship, significant advantages and key role, Geely Geometry A reducer has become one of the core competitiveness of Geely Geometry A model, bringing users a more efficient, comfortable and reliable driving experience.

Product name	reducer assembly/gear reducer assembly/reduction gear set
Color	Silver
Material	high-strength alloy
Type	Car Interior
Application	Car Inside,Auto Car
Package	Standard/Protective
Car model	Geely geometry A
Size	Standard
