### Basic Information

- Place of Origin: China zhajiang
- Brand Name: GEELY
- Model Number: 3340000200S01
- Minimum Order Quantity: 10
- Price: RMB+908+PC
- Packaging Details: carton packaging
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

### Product Specification

- Color: Silver Black
- Material: Metal Brushed Material
- Type: Car Interior, Car Inside
- Product Name: Automatic Shifter
- Function: Automatically Select The Right Gear
- Package: Carton Packaging
- Style: Sense Of Technology, Sense Of Simplicity
- Highlight: **Silver White Automatic Shifter,  
Geely Geometry A Automatic Shifter,  
Metal Brushed Automatic Shifter**

## Product Description

### Geely Geometry A's metal brushed car interior parts silver-white automatic shifter

#### Description:

The automatic shifter of Geely Geometry A adopts a unique knob design, and the overall shape is exquisite and full of technology.

In terms of material, the surface of the shifter has been finely treated and may be made of textured metal or high-quality plastic, which is comfortable to the touch and smooth to operate.

In terms of size, it is moderate in size, which not only does not take up too much space, but also facilitates the driver to operate easily.

Functionally, the gear can be switched through simple rotation action, and the gear logo is clear, including P (parking gear), R (reversing gear), N (air gear), D (forward gear), etc. The operation is intuitive and easy to understand.

The design style is simple and modern, which complements the overall interior style of the car, bringing a convenient and comfortable shifting experience to the driver, and also improving the sense of luxury and technological atmosphere in the car.

In terms of durability, after strict testing and quality control, it can withstand frequent use and maintain stable performance.

In addition, the shifter may be equipped with soft light indications, which is convenient for the driver to clearly identify the gear at night or in a dark environment.

Generally speaking, the automatic shifter of Geely Geometry A is not only a practical functional component, but also a highlight of the interior design, providing drivers with a convenient, comfortable and quality driving experience.

#### Applications:

- Convenient operation: gear switching can be achieved through simple rotating action, which is more convenient than the traditional gear shift. The action range is small and easy, and the shift operation can be completed with the turn of your finger.
- Clear display: The gear sign is clear, including P (parking gear), R (reversing gear), N (empty gear), D (forward gear), etc. The driver can intuitively understand the current selected gear position.
- Improve the sense of science and technology: The knob shift design is full of a sense of science and technology, which is in line with the overall simple and modern style in the car, which helps to improve the sense of luxury and technology atmosphere in the car.
- With related functions: The shifter may be matched with some other functions, such as the automatic parking function, which makes it easier for the vehicle to park. Some models may also be equipped with HUD (head-up display), which can display speed, navigation path guidance and other information, which is convenient for drivers to obtain important driving information during driving and comprehensively improve the convenience and safety of driving.

#### Specifications:

Color	Silver,Black
Material	Metal brushed material
Type	Car Interior,Car Inside
Product name	Automatic shifter
Function	Automatically select the right gear
Package	carton packaging
Style	Sense of technology, sense of simplicity

#### Feature Advantage:

- Convenient operation: It adopts a knob design, and the gear switch can be achieved through simple rotating action, which is intuitive and easy to understand.
- Strong sense of science and technology: This design style has a strong sense of science and technology, which complements the overall interior style of the car and improves the scientific and technological atmosphere of the vehicle.
