Basic Information

- Place of Origin: China zhajiang
- Brand Name: GEELY
- Model Number: 6062054400420
- Minimum Order Quantity: 10
- Price: RMB+1168+PC
- Packaging Details: carton packaging
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Product Name: Top Cover Interior Panel
- Type: Car Interior Parts
- Material: Fabric And Plastic Material
- Color: Milky White
- Application: Decorative Top Cover
- Packing: Carton
- Quality: Very Good
- Style: Simple
- Highlight: Geely geometric A top cover,
Geely geometric A interior panel,
Fabric Plastic Interior Panel

Product Description

Geely geometric A simple milky white top cover interior panel of fabric and plastic material

Description:

I. Materials and processes

The top cover interior plate of Geely Geometry A is made of high-quality materials, and the carefully selected fabric material is not only soft to the touch, but also has excellent durability. The surface has been finely treated, and the texture is clear and natural, showing an exquisite texture.

II. Design and style

In terms of design, the top cover interior plate is perfectly integrated with the overall style of the car, and the smooth lines outline a simple and fashionable outline. It cleverly matches the curvature of the roof, creating a harmonious and unified visual effect. The unique color matching adds an elegant and comfortable atmosphere to the car.

III. Functions and Features

The interior panel not only has a beautiful appearance, but also has practical functions. It effectively plays the role of sound insulation and noise reduction, creating a quiet riding environment for passengers. At the same time, good fire resistance also increases the safety in the car.

IV. Details and quality

Paying attention to details is a highlight of Geely Geometry A top cover interior panel. The exquisite stitching is even and neat, and the wrapping at the edges is tight, all of which reflect the exquisite level of craftsmanship. Every detail is strictly controlled to ensure the high quality of the product.

V. User experience

When you are in the car, the top cover interior panel above your head will bring you a warm and comfortable feeling. Whether it is a daily commute or a long-distance trip, it can provide you with a pleasant riding experience, so that you can enjoy comfort and peace of mind while driving.

Applications:

- Improve the overall texture of the car: the materials used may help to create a certain sense of advanced and comfort.
- Create a unique interior style: match the overall design concept of the vehicle to create an interior environment with a sense of science and technology and a simple style.
- Provide a certain sound insulation effect: reduce the noise generated during the driving of the vehicle and improve the quietness in the car.

Specifications:

Product name	top cover interior panel
Type	Car Interior Parts
Material	fabric and plastic material
Color	milky white
Application	Decorative top cover
Packing	Carton
Quality	very good
style	simple

Feature Advantage:

- Unique design: It adopts a design that integrates with the overall style of the car. The smooth lines outline a simple and fashionable outline, which fits well with the roof curvature and creates a harmonious and unified visual effect.
- Strong sense of technology: It has a large-size panoramic canopy glass roof, similar to the design of Tesla Model 3, expands the rear windshield area, provides better lighting in the car, and provides a wider field of vision than ordinary cars. However, the beam is thicker than the Model 3, and the rear windshield area is slightly smaller, so the visual effect in the car is not as shocking as the Model 3.
- Environmentally friendly material: The seats in the car are made of environmentally friendly fabric. This material not only does not look cheap, but also creates a homely and warm style with color matching. Moreover, its cost may not be lower than that of genuine leather, and its texture is at least not worse than that of imitation leather material. At the same time, the fabric also has a water-proof function, which is more convenient for daily care.
- Practical function: It effectively plays the role of sound insulation and noise reduction, creating a quiet riding environment for passengers, and has good fire resistance performance, which increases the safety in the car.
- Exquisite details: For example, the interior panel of the door panel and the door seam is filled with foam buffer cotton, which can reduce the friction between the interior panel and the door and avoid abnormal noise.
