## Product Description

### Geely Geometry A black plastic woofer for warning function

Description:

Sound configuration:

Geely Geometry A is equipped with multiple speakers, including subwoofers, which brings you a rich auditory experience. Specifically, there is a horn on its A-pillar, a horn on the left front door and one on the right front door, a horn on the B-pillar, and a horn on the left back door and the right back door.

Bass performance:

The woofer of Geometry A has excellent performance, and its heavy bass feels strong and powerful. When playing music, the sound does not disperse and opens a little louder, and there is an obvious vibration, so that you can feel the strong music atmosphere and shock in the car.

Sound settings:

In order to achieve the best sound effect, you can make relevant settings. First of all, be sure to set the surround mode, and then choose the corresponding mode according to different music styles, such as popular mode. In addition, you can also choose different vocalization points to meet personalized auditory needs.

Generally speaking, the sound system of Geely Geometry A is more prominent in bass performance, which can add more fun to your driving process. Whether enjoying dynamic music or enjoying quiet driving time, its bass speaker can play an important role, cooperating with other audio equipment in the car to create an infectious music environment. At the same time, it can cover up the low-frequency noise in the car to a certain extent and improve the overall auditory feeling in the car.

Applications:

The main function of the bass speaker of Geely Geometry A is to play the bass part of the music.

Bass can bring the following effects in music:

1. Enhance the momentum and shock of music: make music sound more powerful, especially in some music with a strong sense of rhythm, which can make people feel a strong impact.
2. Create an infectious musical atmosphere: add rich atmosphere and emotion to the whole music scene.
3. Cover up all kinds of low-frequency noise in the car's driving: such as engine sound, driving vibrato, etc., and improve the auditory environment in the car.

Specifications:

Product name	woofer
Color	black
Material	plastic
Type	Car Interior Parts
Application	playing music
