

## Plastic Alloy Black Air Conditioning Host Automotive HVAC Parts Assembly Customized

Our Product Introduction

for more products please visit us on [auto-partsspare.com](http://auto-partsspare.com)

### Basic Information

- Place of Origin: China zhajiang
- Brand Name: GEELY
- Model Number: 8015019800
- Minimum Order Quantity: 10
- Price: RMB+1846+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

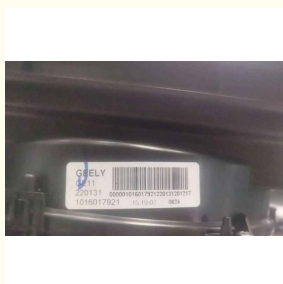

### Product Specification

- Product Name: Air Conditioning Host Assembly
- Color: Black
- Material: Plastic And Alloy
- Application: The Core Of The Air Conditioner
- Quality: Excellent
- Car Make And Model: Geely Geometry A
- Package: Cartoon Packageing
- Highlight: **Plastic Alloy Air Conditioning Host, hVAC Air Conditioning Host, Customized automotive hvac parts**

## Product Description

### Geely Geometry A plastic and alloy black air conditioning host assembly as the core of the air conditioner

#### Description:

I. Excellent performance, the source of comfort

The air conditioning host assembly of Geely Geometry A is the core creator of the comfortable environment in the car. Its strong cooling and heating capabilities can respond quickly in hot midsummer or cold winter days to create a pleasant temperature for you.

II. Accurate temperature control, like bathing in the spring breeze

Using advanced temperature sensing technology, the air conditioning host assembly can accurately detect temperature changes in every part of the car. Through the intelligent algorithm, it can delicately adjust the output of refrigeration or heating, so that you can feel as if you are in the comfort of the spring breeze at every moment in the car.

III. High efficiency and energy saving, green travel

While pursuing comfort, this air conditioning mainframe assembly does not forget energy conservation and environmental protection. Optimized design and efficient components minimize energy consumption during operation and contribute to your green travel without affecting the powerful air conditioning performance.

IV. Silent operation, quiet space

In order not to disturb your driving and riding experience, the air-conditioned host assembly maintains an extremely low noise level during operation. Even when you are working with all your strength, you can create a quiet and comfortable car space for you, so that you can enjoy a comfortable temperature without being disturbed by noise.

V. Stable and reliable, long-lasting companionship

After strict quality testing and durability testing, the air conditioning host assembly has excellent stability and reliability.

Regardless of complex road conditions and changing use environments, it can consistently provide you with stable air conditioning services and become a reliable partner on your journey.

#### Applications:

- Adjust the temperature in the car: It can realize the cooling and heating functions to provide a comfortable temperature environment for the car. In hot summer or cold winter, it can respond quickly to meet passengers' demand for temperature.
- Air purification: Equipped with air purification function, it can filter and remove particles, odors, bacteria and other pollutants in the air to improve the air quality in the car. For example, it can detect air quality outside the car, purify PM2.5, release negative ions, etc.
- Rapid cooling: Thanks to the fully automatic frequency conversion constant temperature dual-zone air conditioning and the rear air outlet, the front and rear occupants in the car can quickly enjoy the coolness in summer. For example, under specific conditions, turning on the air conditioner for 60 seconds can cool down to 10 , and when the air volume of the air conditioner is turned on to the maximum and the lowest temperature, it can be reduced to 26 in 10 minutes.
- Energy saving and environmental protection: direct use electric energy to drive the air conditioner, refrigeration is more direct and rapid, and there is no carbon monoxide production. Whether it's outdoors or in the garage, you can drive it if you want, and you don't have to worry about carbon monoxide poisoning.

#### Specifications:

product name	air conditioning host assembly
color	black
material	plastic and alloy
application	the core of the air conditioner
quality	excellent
car make and model	Geely Geometry A
package	cartoon packageing
size	moderate

#### Feature Advantage:

- Full sense of technology: the touch button area is unique, and the touch will light up. The specific functions and options are adjusted by touching the screen.
- Powerful air purification function: equipped with air purification function, it can purify PM2.5, release negative ions, detect the air quality outside the car, etc., which can improve the air quality in the car to a certain extent and is very friendly to families with children.
- Rapid cooling: Thanks to the fully automatic frequency conversion constant temperature dual-zone air conditioning and rear air outlet, the front and rear row passengers in the car can quickly enjoy the coolness in summer. For example, when the temperature in the car reaches 51.2 , turning on the air conditioner for 60 seconds can quickly reduce the temperature by 10 ; in the case of 45 , the air volume of the air conditioner is turned on to the maximum and the temperature is the lowest, and it can reach 26 in 10 minutes.
- Energy saving and environmental protection: directly use electricity to drive the air conditioner, the refrigeration is more direct and fast, and there is no carbon monoxide production. Whether it is outdoors or in the garage, you can drive it if you want, and you don't have to worry about carbon monoxide poisoning.
- Touch design: The touch air conditioning panel has a unique shape, and the main gray color is full of strong Nordic style.
- Detailed design: The air conditioning outlet adopts geometric design elements, and the rear row is equipped with an air conditioning outlet and a USB interface. The materials are special, creating a textured atmosphere, and the workmanship is also in place.
- Intelligent automatic constant temperature: It can automatically adjust the temperature according to the temperature inside and outside the car, humidity, the degree of solar radiation, etc., so as to reduce artificial operation while maintaining the

appropriate temperature in the car. Some models also have functions such as voice control to adjust the temperature and wind speed, bringing a more convenient use experience.
