Product Description

The gray sunshade made of Geely Binyue plastic can block the sun.

Description:

Geely Binyue's sunshade is a practical configuration carefully built in the car.

Appearance and material:

Its exterior lines are smooth and perfectly integrated with the interior style of the car. It is made of high-quality plastic material, and the surface is finely treated, and the touch is smooth and full of texture.

Functional design:

Its functional design is very thoughtful. It can flip up and down flexibly and easily cope with the direct sunlight from the front. Not only that, it also has a lateral rotation function to block strong light from different angles in an all-round way to ensure a clear vision of the people in the car.

Shading effect:

The shade has a moderate area and a wide range of effective occlusion. A special thermal insulation coating may be added to the interior, which not only blocks light, but also reduces heat transfer to a certain extent, creating a comfortable environment for the car.

The makeup mirror is equipped with:

On the back of the sunshade, it is intimately equipped with a clear makeup mirror. The mirror is surrounded by soft lighting, which allows passengers to easily tidy up makeup or view facial details even in the case of insufficient light.

Detailed processing:

The edges are rounded to avoid accidental damage caused by sharp corners. The fixed device is firm and reliable, and there will be no shaking or abnormal noise during the driving of the vehicle.

Color and collocation:

The color is consistent with the overall tone of the car, which enhances the overall beauty of the interior. Whether it is a dark or a light interior, the sunshade can complement it.

In a word, Geely Binyue's sunshade fully takes into account the needs and experience of users in terms of material selection, functional design and detail processing, adding comfort and convenience to every trip

Applications:

1. Block the sun: effectively block the direct sunlight in front of you, reduce the irritation of the sun to the driver's eyes, and avoid the driver's misjudgment of the distance, speed and obstacles of the vehicle in front of you due to strong light, which helps to improve driving safety.
2. Side shade: Some sunshades can be flipped sideways, which can cope with the sunlight shining from the side and provide a more comprehensive shade effect.
3. Convenient for makeup or tidying up: There is usually a makeup mirror hidden behind the sunshade, and some are also equipped with lights, which is convenient for passengers in the car to tidy up their makeup or check their facial condition when needed.

Specifications:

Product name	sunshade
Color	gray
Material	plastic
Type	Car Interior
Application	Car Inside,Auto Car
Package	Standard/Protective
Size	Standard
Style	simple and atmospheric

Feature Advantage:

1. Multi-angle sunshade: not only can it flip up and down, but also rotate sideways to adapt to the sun in different directions and provide more comprehensive sunshade protection.
2. Excellent material: It is made of high-quality plastic material, with good durability and deformation resistance, and can maintain a good state of use for a long time.
3. Appearance integration: The design matches the overall interior style of the car. The lines are smooth, beautiful and generous, and does not affect the overall beauty of the car.
4. Makeup mirror function: It is equipped with a makeup mirror, which is convenient for passengers to tidy up their makeup at any time. The lighting design around the mirror increases the convenience of use, especially in a dark environment.
5. Heat insulation effect: materials or coatings with certain heat insulation performance may be used to reduce the heat brought by sunlight and improve the comfort in the car.
6. Stable and durable: stable installation, no shaking and abnormal noise during the driving of the vehicle, ensuring the reliability of use.
7. Easy to operate: the operation of flipping and rotating is simple and easy, and it can be adjusted to the right angle without effort.
8. Suitable size: The size design of the sunshade is reasonable, which can effectively block the sun without blocking the driver's sight.
