

## Geely Binyue black bass speaker with excellent performance

### Our Product Introduction

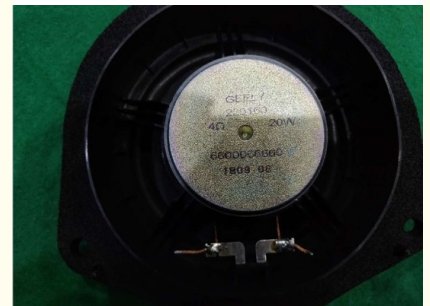

#### Basic Information

- Place of Origin: China zhajiang
- Brand Name: GEELY
- Model Number: 7082004400
- Minimum Order Quantity: 100
- Price: RMB+34+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

#### Product Specification

- Product Name: Bass Speaker
- Color: Black
- Type: Car Interior
- Application: Car Inside,Auto Car
- Package: Standard/Protective
- Car Model: Geely Binyue
- Size: Standard
- Style: Simple
- Highlight: Excellent Performance black bass speaker ,  
Geely Binyue black bass speaker

## Product Description

### Geely Binyue black bass speaker with excellent performance

#### Description:

Geely Binyue's woofer has the following remarkable characteristics:

First of all, it is very exquisite in the choice of material. For example, some models of subwoofers use a special surface-coated paper sound basin. The advantage of this material is that it can make the mid-bass part mellow and full of elasticity, so that you can feel the deep and powerful bass effect when listening to music.

In terms of design, it has also been carefully considered. Its structural design is reasonable, which can effectively improve the transmission efficiency and quality of sound. When you play music with a strong sense of rhythm, the woofer can clearly present every rhythm point, bringing you a dynamic music experience.

In addition, the transient response of Geely Binyue subwoofer is sensitive. Whether it is intense rock or deep bass, it can respond quickly and accurately convey the low-frequency details of the music without obvious delay or distortion.

It cooperates with the overall sound system of the vehicle. It can be perfectly integrated with treble and mid-tone speakers to create a sound effect with rich layers and excellent sound quality. Whether listening to pop music, classical music or other types of music, it can present you with realistic and moving sound scenes.

Moreover, the Geely Binyue subwoofer not only ensures excellent performance, but also has good durability. After strict quality testing, it can maintain stable performance during long-term use and continue to bring you high-quality bass enjoyment.

Whether in daily driving or long-distance travel, Geely Binyue's subwoofers can create a charming music space for you, allowing you to enjoy the pleasant experience of the perfect combination of driving and music.

#### Applications:

- Improve the passion and shock of music: be able to replay the low-frequency part of the music, make the music play more powerful and powerful, and bring a stronger auditory impact.
- Create an infectious music atmosphere: It helps to create a music environment full of atmosphere, so that people in the car can better immerse themselves in the music.
- Compensation for low-frequency sound effects: overcome the weakening of the bass effect caused by noise such as engine sound, driving vibrato and wind sound during the driving, as well as the weakening of the bass effect caused by the internal structural conditions of the car, so as to extend the bass area, maintain the natural tone balance of the music, and make the music sound deep, wide and full. And clear and pure.
- Enhance the overall effect of the sound system: cooperate with treble and midrange speakers to present a sound effect with rich layers and excellent sound quality, and improve the level of the vehicle sound system.

#### Specifications:

Product name	bass speaker
Color	Black
Type	Car Interior
Application	Car Inside,Auto Car
Package	Standard/Protective
Car model	Geely Binyue
Size	Standard
Style	simple

#### Feature Advantage:

- Sound quality performance: Some models of woofers can present a more mellow, full and elastic bass effect, making the music more powerful and powerful. For example, it may use a special surface-coated paper sound basin or magnesium silicate composite diaphragm structure, which has a strong analytical strength in details to ensure that the sound is not distorted and makes the music sound delicate and rich.
- Transient response is sensitive: it can quickly respond to audio signals, accurately convey low-frequency details in music, and clearly present every rhythm point when playing music with a strong sense of rhythm.
- Good coordination with the sound system: it can be well integrated with treble and alto speakers to create a sound effect with rich levels and excellent sound quality, and improve the level of the vehicle sound system.
- Easy installation: Some rear sound field horn designs are suitable for in-situ installation and will not make many changes to the original line of the car.
