- Model Number: 7082004200
- Minimum Order Quantity: 100
- Price: RMB+25.3+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Product Name: Tweeter
- Color: Black
- Material: Plastic
- Type: Car Interior
- Application: Car Inside,Auto Car
- Package: Standard/Protective
- Car Model: Geely Binyue
- Size: Standard
- Highlight: Excellent Performance tweeter, Black tweeter, Geely Binyue tweeter

Product Description

Geely Binyue's black tweeter with excellent performance can play treble stably.

Description:

Its high-frequency part is clear and delicate, natural and beautiful. Using special materials and designs, it can accurately present the details and extension of the treble, so that you can feel a clear and bright treble effect when listening to music. In terms of material, high-quality diaphragm materials may be used, such as dome special silk treble, which helps to improve the resolution and transparency of the treble, so that the treble sounds more pleasant and does not have a harsh or sharp feeling.

Its transient response is sensitive and can quickly keep up with the rhythm changes of music. Whether it is a fast treble melody or a complex music paragraph, it can be clearly presented without delay or blur.

The coordination with the entire sound system is also excellent, and it can be perfectly integrated with the mid-woofer to create a rich and balanced sound effect. Whether listening to pop, classical, rock or other types of music, tweeters can add more details and brilliance to the music and enhance the overall music atmosphere and appeal.

During the driving of the vehicle, it can also maintain stable performance without obvious interference from external noise or vibration. It always provides you with a clear and excellent treble playback effect, so that you can enjoy a high-quality music feast while driving.

Applications:

- Restore high-frequency sound: It can accurately present the high-frequency part of the music, show the delicacy and details of the sound, make the music sound clear, bright, natural and bright, full of layers, and improve the expressiveness and resolution of the sound.
- Improve the sound quality effect: cooperate with the mid-woofer to create a balanced and rich sound effect, so that the sound quality of the entire sound system can be significantly improved, bringing users a better listening experience.
- Enhance the appeal of music: better restore the treble part of the instrument, so that users can feel the charm and emotion of the music more truly.

Specifications:

Product name	tweeter
Color	Black
Material	plastic
Type	Car Interior
Application	Car Inside,Auto Car
Package	Standard/Protective
Car model	Geely Binyue
Size	Standard

Feature Advantage:

- Use special materials: for example, using dome special silk treble, which helps to improve the resolution and transparency of the treble, so that the treble sounds more pleasant, clear and delicate, natural and bright, and there will be no harsh or sharp feeling.
- Excellent tone performance: the medium and high frequency band performance level is high, the middle and high tones are clear and delicate, with good penetration, bright but not hard, just right. It can accurately present the high-frequency part of the music, show the delicateness and details of the sound, improve the expressiveness and resolution of the sound, and make the music more layered.
- Transient response is sensitive: it can quickly keep up with the rhythmic changes of music. Whether it is a fast treble melody or a complex music paragraph, it can be clearly presented without delay or ambiguity.
- Good coordination with the sound system: it works well with the mid-woofer, which can create a balanced and rich sound effect.
- Reasonable installation position: It is usually installed in a position that is level with the human ear, such as on the A-pillar of the car, above the dashboard or on the door, which can form a sound field that is basically the level of the human ear, so that the owner can better feel the charm of music.
