Basic Information

- Place of Origin: China zhajiang
- Brand Name: GEELY
- Model Number: 6041130900742
- Minimum Order Quantity: 10
- Price: RMB+547+PC
- Packaging Details: carton packaging,
- Delivery Time: 20-30Work days
- Payment Terms: MoneyGram
- Supply Ability: 50000+PC+30day

Product Specification

- Product Name: Sub-dashboard Body Assembly
- Color: Black
- Material: High-strength Plastic Material
- Type: Car Interior
- Application: Car Inside,Auto Car
- Package: Standard/Protective
- Car Model: Geely Binyue
- Style: Advanced And Simple
- Highlight: **Advanced sub-dashboard body assembly ,
Geely Binyue sub-dashboard body assembly ,
Simple Sub Dashboard Body Assembly**

Product Description

Geely Binyue's high-strength plastic material advanced and simple sub-dashboard body assembly

Description:

I. Overall design and appearance

Geely Binyue's secondary dashboard body assembly adopts a fashionable and technological design concept. Its smooth lines are perfectly integrated with the overall style of the car, which not only improves the beauty of the car, but also creates a comfortable and exquisite driving environment for passengers.

II. Material and craftsmanship

In the selection of materials, high-quality engineering plastics and soft materials are selected. After fine processing technology, the surface is smooth and delicate, and the touch is comfortable. It not only has good wear resistance and corrosion resistance, but also effectively resists scratches and wear in daily use.

III. Functional layout

1. Cup holder design

- The reasonably distributed cup holder can accommodate cups and beverage bottles of different sizes to ensure the stable placement of drinks during driving.

2. Storage space

- It provides rich storage space, which is convenient for passengers to store mobile phones, wallets, keys and other small items, so that the car is kept neat and orderly.

3. Control the button area

- It integrates a variety of common control buttons, such as air conditioning adjustment, driving mode selection, etc., which is convenient to operate and within reach.

IV. Considerations of ergonomics

Fully considering the principles of ergonomics, the height and angle of the secondary dashboard are carefully designed so that passengers can naturally stretch their arms when using various functions, reduce fatigue, and improve the comfort and safety of driving.

V. Installation and adaptability

This dashboard body assembly is specially tailored for Geely Binyue models. It is easy to install and accurately matches the interface of the vehicle, ensuring stability and reliability after installation, and will not cause looseness or abnormal noise.

Applications:

1. Control and shift: The operation interface of shift is provided, and the driver can switch the gear through the relevant device on the secondary dashboard to adapt to different speed and driving conditions.

2. Place tea cups and other objects: It is equipped with a cup holder and other structures, which is convenient for drivers and passengers to place tea cups, beverage bottles and other items to keep the car clean and orderly.

3. Provide front and rear ashtrays: it is convenient for people in the car to smoke, and it is also convenient for the storage and cleaning of soot.

4. Set up backup power supply: It can be used to connect or charge some electronic devices.

5. Equipped with a rear air outlet: it helps to adjust the air circulation and temperature in the car and improve the comfort of the ride.

6. Including air duct and air conditioning valve: cooperate with the air conditioning system to realize the control and distribution of air conditioning in the car.

Specifications:

Product name	sub-dashboard body assembly
Color	Black
Material	high-strength plastic material
Type	Car Interior
Application	Car Inside,Auto Car
Package	Standard/Protective
Car model	Geely Binyue
Style	advanced and simple

Feature Advantage:

1. Fashionable design: The double-layer design weakens the existence of the center console, and the shape is novel. The interior decoration uses a large number of metal panels and contrast color design to create a young and bright interior atmosphere.

2. High functional integration: a variety of control buttons and functional areas are centralized to facilitate driver operation, such as air conditioning adjustment, driving mode selection, etc.

3. Reasonable space utilization: there are cup holders, storage space, etc., which is convenient to place items and keep the car clean and orderly.

4. Excellent material: high-quality engineering plastics and soft materials are selected. The surface is smooth and delicate, with good wear resistance and corrosion resistance.

5. Convenient and stable installation: customized for Geely Binyue models, it is accurately matched with the vehicle interface to ensure stability after installation, and is easy to install and replace.
