Product Description

Geely Binyue's fashionable and practical front reading lamp

Description:

1. High-quality lighting: LED light source is used, which has the advantages of low energy consumption, high brightness and long service life. It can provide bright and uniform light in the car, which is convenient for front passengers to read or find items in various situations.
2. Intimate design: Its position is usually set in the center of the front roof, with a wide range of illumination, so that passengers can easily see the surrounding environment.
3. Convenient operation: It is generally equipped with a manual switch, which can be turned on or off at any time as needed. Some models may also have a mode that automatically opens with the door. When the door is opened, the reading light automatically turns on to provide lighting for passengers. After the door is closed, it will automatically turn off, which is convenient and energy-saving.
4. Integration with the interior style: its exterior design is coordinated with the overall style of the car. The smooth lines and exquisite shape not only provide functional lighting, but also increase the sense of decoration in the car.
5. Improve the sense of atmosphere: At night or in a dark environment, the front reading light can create a warm and comfortable atmosphere in the car.

Applications:

1. Provide in-car lighting: When there is insufficient light in the car, provide sufficient lighting brightness for front passengers to facilitate passengers to read, find items or carry out other activities that need to be seen clearly.
2. Convenient location: It is usually located in the middle of the front roof, with a wide range of lighting, so that passengers can easily see the surrounding environment.
3. Convenient operation: It is generally equipped with a manual switch, which can be turned on or off at any time as needed. Some models also have the mode of automatically opening with the door. When the door is opened, the reading light automatically turns on to provide lighting for passengers. After the door is closed, it automatically turns off, which is convenient and energy-saving.
4. Improve convenience: At night, the center console area of the car is dim, and the reading light can illuminate the area, which is convenient for passengers to connect USB devices or use cigarette lighters. At the same time, they can also see the objects on the table, which is easy to find.

Specifications:

Product name	front reading lamp
Size	Standard
Type	Car Interior Parts
Material	Plastic
Color	gray
Packing	Carton,normal
Car make	Geely Binyue
Quality	Genuine product,High Level

Feature Advantage:

- LED light source: The whole vehicle light source adopts LED. Compared with the halogen lamp source, it has the characteristics of low power and strong brightness. The LED does not need a stabilizer and lights up extremely fast.
- Unique shape: The taillights may have a unique light strip style, such as the shape of 3 bands, which is still clear in night mode, highly recognizable and has a certain iconicity.
