Product Description

Geely Binyue's silver luggage rack made of aluminum alloy is used to place luggage on the roof

Description:

I. Appearance and design

Geely Binyue luggage rack adopts a fashionable and smooth design style, which is perfectly integrated with the body, highlighting the unique charm of the vehicle. Its lines are simple and bright, which not only increases the overall beauty of the vehicle, but also shows a strong sporty atmosphere.

II. Material and quality

This luggage rack is made of high-quality aluminum alloy, which has excellent strength and durability. Aluminum alloy material can effectively resist the erosion of various harsh environments, ensuring that the luggage rack is not easy to deform and fade in long-term use. At the same time, its surface has been specially treated and has good corrosion resistance, so that the luggage rack always maintains a bright appearance.

III. Size specifications

The size of the luggage rack has been carefully designed to match the size of Geely Binyue. The specific size is [length] x [width] x [height], which can provide sufficient carrying space to meet your luggage storage needs during daily travel and travel.

IV. Installation method

The installation method is simple and fast, and screw embedded installation is adopted. Before installation, please make sure that the roof is reserved for the corresponding installation position. First, fix the crossbar on the vertical rail, and then install the whole luggage rack on the crossbar (see the instruction manual of the luggage rack for details). During installation, you should pay attention to the tightness of the screws to ensure that the luggage rack is firmly and stable.

V. Carrying capacity

It has a strong load capacity and can carry items above [X]kg. Whether it is large luggage, bicycles or other outdoor equipment, it can be easily placed on the luggage rack, bringing more convenience to your travel.

VI. Applicable models

It is specially designed for Geely Binyue models and perfectly adapts to the [specific year] Geely Binyue model to ensure the fit and stability after installation.

VII. Other features

1. The details of the luggage rack are exquisitely handled, and the corners are rounded to avoid scratching your items or body.
2. The unique anti-skid design makes the items placed on it more stable and reduces the risk of shaking and falling during driving.
3. After strict quality testing, it meets the relevant safety standards, so that you can use it more assuredly.

Applications:

1. Increase storage space: Large luggage, bicycles, folding beds and other items can be placed. When the trunk space is insufficient, it can provide additional loading space to meet the loading needs when traveling and traveling.
2. Convenient for self-driving travel: When traveling by self-driving, you can carry travel luggage with the roof box and roof frame, increase the space in the car, and also carry snowboards, sailboats and other sports equipment.
3. Decoration and beauty: It plays a certain decorative role, making the appearance of the vehicle more sporty and fashionable.

Specifications:

Product name	luggage rack
size	OEM Standard Size,Standard
Type	Car Body Parts
Material	aluminum alloy
Color	silver
Application	place luggage on the roof
Packing	Carton,normal
Quality	Genuine product,High Level

Feature Advantage:

- Appearance design: The design of the luggage rack is fashionable and smooth, and perfectly integrated with the body, which can increase the overall beauty of the vehicle and highlight the sporty atmosphere. The luggage racks of some models adopt a suspended design with chrome-plated decoration, which highlights the sense of fashion.
- Excellent material: It is usually made of aluminum alloy, which has the characteristics of high strength and good durability. It can effectively resist the erosion of various harsh environments. It is not easy to deform and fade after long-term use, and the surface has been specially treated with good corrosion resistance.
- Size adaptation: Its size has been carefully designed to match the size of Geely Binyue's model, providing suitable carrying space to meet the loading needs of daily travel and travel.
- Carrying capacity: Generally, it has a strong load capacity, which can carry items of more than 70kg. It is convenient to place large luggage, bicycles, folding beds, etc. It can also carry roof boxes, roof frames, etc. for loading more travel luggage or sports equipment.
- Convenient installation: the installation method is relatively simple, and some styles adopt screw embedded installation. Some luggage racks may also provide the option of punch-free installation to reduce damage to the body and ensure firm and stable installation.
- Detail handling: the corners are rounded to avoid scratching items or the body; some luggage racks may have a non-slip design to make the items placed on it more stable and reduce the risk of shaking and falling while driving.
- High practicality: In addition to increasing storage space, it can also be used to decorate the vehicle to make the roof more fashionable.
